The Alerian Energy Infrastructure ETF (NYSE: ENFR) delivers exposure to the Alerian Midstream Energy Select Index (CME: AMEI), a composite of North American energy infrastructure companies.

Investing in North American Energy Infrastructure

The energy renaissance in North America began with new technologies unlocking vast reserves of oil and natural gas. Energy infrastructure companies will build the real assets to connect growing production of oil and natural gas to domestic demand centers and to the coasts for exports. Energy infrastructure will play an important role as the United States becomes the world's swing producer of hydrocarbons and a potential net energy exporter by 2022.

- **Real assets** such as pipelines, storage tanks, and processing plants provide inflation protection
- **Volume-driven businesses** benefit from the growth in North American oil and natural gas production
- **Billions of investment dollars** are required for infrastructure to keep pace with the growth in North American oil and natural gas production

The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. The ETF accrues deferred income taxes for future tax liabilities associated with the portion of MLP distributions considered to be a tax-deferred return of capital and for any net operating gains as well as capital appreciation of its investment. This deferred tax liability is reflected in the daily NAV and as a result the MLP fund's after-tax performance could differ significantly from the underlying assets even if the pre-tax performance is closely tracked.

As of June 29, 2018, the benchmark for the Fund changed from the Alerian Energy Infrastructure Index (AMEI) to the Alerian Midstream Energy Select Index (AMEI).

¹ Annualized.

² Market Price is based on the midpoint of the bid/ask spread at 4 p.m. ET and does not represent the returns an investor would receive if shares were traded at other times.

Investment Objective

The Fund seeks investment results that correspond (before fees and expenses) generally to the price and yield performance of its underlying index, the Alerian Midstream Energy Select Index (the "Index").

Potential Fund Advantages

- **Income Potential** - Quarterly dividends driven by stable cash flows
- **Diversification** - Low correlation to other yield-focused investments such as bonds, utilities and REITs
- **Growth** - Total return potential without fund-level corporate taxes

Diversification does not eliminate the risk of experiencing investment losses.

Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results. For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The Overall Morningstar Rating™ for a fund is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating™ metrics. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) As of September 30, 2018, the fund was rated against 100 funds over the 3-year period. With respect to the Energy Limited Partnership funds, the Alerian Energy Infrastructure ETF received a Morningstar Rating™ of 5 stars for the overall and three-year period. Other classes may have different performance characteristics. Past performance is no guarantee of future results. ©2018 Morningstar, Inc. All Rights Reserved.

Investments in securities of MLPs involve risks that differ from an investment in common stock. MLPs are controlled by their general partners, which generally have conflicts of interest and limited fiduciary duties to the MLP, which may permit the general partner to favor its own interests over the MLPs.

A portion of the benefits you are expected to derive from the Fund's investment in MLPs depends largely on the MLPs being treated as partnerships for federal income tax purposes. As a partnership, an MLP has no federal income tax liability

at the entity level. Therefore, treatment of one or more MLPs as a corporation for federal income tax purposes could affect the Fund's ability to meet its investment objective and would reduce the amount of cash available to pay or distribute to you. Legislative, judicial, or administrative changes and differing interpretations, possibly on a retroactive basis, could negatively impact the value of an investment in MLPs and therefore the value of your investment in the Fund.

The fund invests primarily in a particular sector and could experience greater volatility than a fund investing in a broader range of industries.

The Fund may be subject to risks relating to its investment in Canadian securities. Because the Fund will invest in securities denominated in foreign currencies and the income received by the Fund will generally be in foreign currency, changes in currency exchange rates may negatively impact the Fund's return.

Investments in the energy infrastructure sector are subject to: reduced volumes of natural gas or other energy commodities available for transporting, processing or storing; changes in the regulatory environment; extreme weather and; rising interest rates which could result in a higher cost of capital and drive investors into other investment opportunities.

The Alerian Energy Infrastructure ETF is not suitable for all investors. Subject to investment risks, including possible loss of the principal amount invested MLP - Master Limited Partnership.
