

INFRASTRUCTURE MLP AND ENERGY MONTHLY DATA UPDATE

October 31, 2018

Below are the most frequently requested data points for the Alerian MLP Infrastructure Index (AMZI), which is the underlying index for the Alerian MLP ETF (AMLP).

Price Performance

Constituent Yields

Performance Table

	1 Mo.	3 Mo.	6 Mo.	YTD	1 Yr.	Annualized		
						3 Yr.	5 Yr.	10 Yr.
AMZI	-8.2%	-8.0%	9.1%	-3.4%	-0.5%	-2.0%	-4.9%	9.0%
REITs	-8.0%	-8.0%	9.6%	-2.6%	0.7%	-1.5%	-4.8%	8.3%
Utilities	-1.6%	-1.9%	5.7%	-0.5%	2.1%	5.3%	8.0%	11.3%
S&P 500	2.0%	2.5%	8.3%	4.7%	1.0%	10.9%	10.7%	10.6%
Bonds	-6.8%	-3.3%	3.8%	3.0%	7.3%	11.5%	11.3%	13.2%

The Alerian MLP Infrastructure Index (AMZI) is a composite of energy infrastructure MLPs whose constituents earn the majority of their cash flow from midstream activities involving energy commodities. The S&P 500 is a capitalization-weighted index designed to measure performance of the broad domestic economy. Utilities are represented by the S&P 500 Utilities Index, a composite of utility stocks in the S&P 500. Real Estate Investment Trusts (REITs) are represented by the Real Estate 50 Index, a supplemental benchmark to the FTSE NAREIT US Real Estate Index Series to measure the performance of larger REITs. Bonds are represented by the Barclays US Aggregate Total Return Bond Index. One may not invest directly in an index.

AMZI vs. Oil Performance

ETP was removed from the AMZI Index and ETE was added in a special rebalancing due to the merger of ETE and ETP in October. With the transaction, ETE changed its name to "Energy Transfer LP" and its symbol to "ET".

Important Disclosures & Definitions

An investor should consider investment objectives, risks, charges and expenses carefully before investing. To obtain a prospectus, which contains this and other information, call 1.877.398.8461 or visit www.alpsfunds.com. Read the prospectus carefully before investing.

Shares are not individually redeemable. Investors buy and sell shares on a secondary market. Only market makers or "authorized participants" may trade directly with the Fund, typically in blocks of 50,000 shares.

Investments in securities of MLPs involve risks that differ from an investment in common stock. MLPs are controlled by their general partners, which generally have conflicts of interest and limited fiduciary duties to the MLP, which may permit the general partner to favor its own interests over the MLPs.

The benefit you are expected to derive from the Fund's investment in MLPs depends largely on the MLPs being treated as partnerships for federal income tax purposes. As a partnership, an MLP has no federal income tax liability at the entity level. Therefore, treatment of one or more MLPs as a corporation for federal income tax purposes could affect the Fund's ability to meet its investment objective and would reduce the amount of cash available to pay or distribute to you. Legislative, judicial, or administrative changes and differing interpretations, possibly on a retroactive basis, could negatively impact the value of an investment in MLPs and therefore the value of your investment in the Fund.

The Fund invests primarily in energy infrastructure companies which may be adversely affected by changes in worldwide energy prices, exploration, production spending, government regulation, changes in exchange rates, depletion of natural resources and risks that arise from extreme weather conditions.

All K-1s are received and processed by the Alerian MLP ETF. The Alerian MLP ETF distributes a single Form 1099 to its shareholders. This notice is provided to you for informational purposes only, and should not be considered tax advice. Please consult your tax advisor for further assistance.

There are risks involved with investing in ETFs including the loss of money. An investment in the Fund is subject to investment risk including the possible loss of the entire principal amount that you invest.

If, due to tax law changes, an MLP in the portfolio is deemed a corporation rather than a partnership for federal income purposes, then income would be subject to federal taxation at the MLP level. This would reduce the amount of cash available for distribution to the fund which could result in a reduction of the fund's value. The Fund is taxed as a regular corporation for federal income purposes, which reduces the Net Asset Value of fund shares by the accrual of any deferred tax liabilities. Depending on the taxes paid by the fund as a result of income and/or gains from investments and/or the sale of MLP interests, the return on an investment in the Fund will be reduced. This differs from most investment companies, which elect to be treated as "regulated investment companies" to avoid paying entity level income taxes. The ETF is taxed as a regular corporation and is subject to U.S. federal income tax on taxable income at the corporate tax rate (currently as high as 21%) as well as state and local taxes.

The Alerian MLP Infrastructure Index (AMZI): comprised of 25 midstream energy Master Limited Partnerships and provides investors with an unbiased benchmark for the infrastructure component of this emerging asset class.

One may not invest directly in an index.

MLP - Master Limited Partnership.

ALPS Portfolio Solutions Distributor, Inc. is the distributor for the Alerian MLP ETF.
