

ALPS PORTFOLIO SOLUTIONS ETF PRODUCT LIST

INNOVATION FOR ENHANCING PORTFOLIO CONSTRUCTION

September 30, 2018

Our ETF suite is strategically designed to focus on real assets, factor investing, thematic strategies and tactical allocations, which can complement an investor's core holdings to help optimize returns. Rather than investing in market cap weighted indices, which may have predisposed sector and risk biases, our goal is to provide investors with high conviction ETFs to strategically customize portfolios and smooth risk-adjusted returns. We believe that providing niche ETFs within a sector-constrained methodology can provide better opportunities to generate higher risk-adjusted returns across various asset classes, countries, sectors, and themes.

Shares of Exchange Traded Funds (ETFs) are not individually redeemable and owners of the shares may acquire those shares from the ETF and tender those shares for redemption to the ETF in Creation Units only, see the ETF prospectus for additional information regarding Creation Units. Investors may purchase or sell ETF shares throughout the day through any brokerage account, which will result in typical brokerage commissions.

There are risks associated with investing including possible loss of principal. Asset allocation does not assure a profit or protect against down markets. The stocks of smaller companies are subject to above-average market price fluctuations. There are specific risks associated with international investing, such as currency fluctuations, foreign taxation, differences in financial reporting practices and rapid changes in political and economic conditions. Real estate investments are subject to specific risks, such as risks related to general and local economic conditions and risks related to individual properties. Fixed income securities are subject to interest rate risk, prepayment risk and market risk. Commodity trading is highly speculative and involves a high degree of risk. Funds focusing on a single sector generally experience greater price volatility.

For more information on the above listed funds, visit www.alpsfunds.com. Please read the prospectus carefully before investing. The prospectus and, if available, the summary prospectus contains this and other information about the investment companies. The investor should consider investment objectives, risks, charges and expenses carefully before investing.
