Description

- The ALPS | Red Rocks Listed Private Equity Fund is an open-end mutual fund that provides investors with exposure to private businesses by investing in publicly-traded private equity companies that trade on global exchanges. These listed private equity companies have direct ownership, control and influence over the privately held businesses in their portfolios. The Fund assembles approximately 30-50 holdings and is diversified by stage of investment, geography, industry, and capital structure. Investors enjoy daily liquidity and valuation, and the primary mission of the Fund is to maximize total return.

Role in Portfolio

The ALPS | Red Rocks Listed Private Equity Fund may be used to potentially reduce risk and generate alpha in a diversified portfolio. A Ibbotson study suggests a typical allocation range from 0-10%, according to risk tolerance, with a market neutral allocation of roughly 3%¹

Important Disclosures & Definitions

An investor should consider investment objectives, risks, charges and expenses carefully before investing. To obtain a prospectus, which contains this and other information, please contact your investment professional. Read the prospectus carefully before investing.

Certain of the Fund's investments may be exposed to liquidity risk due to low trading volume, lack of a market maker or legal restrictions limiting the ability of the Fund to sell particular securities at an advantageous price and/or time. As a result, these securities may be more difficult to value. Foreign investing involves special risks such as currency fluctuations and political uncertainty. The Fund invests in derivatives and is subject to the risk that the value of those derivative investments will fall because of pricing difficulties or lack of correlation with the underlying investment.

There are inherent risks in investing in private equity companies, which encompass financial institutions or vehicles whose principal business is to invest in and lend capital to privately held companies. Generally, little public information exists for private and thinly traded companies, and there is a risk that investors may not be able to make a fully informed investment decision.

Listed Private Equity Companies may have relatively concentrated investment portfolios, consisting of a relatively small number of holdings. A consequence of this limited number of investments is that the aggregate returns realized may be adversely impacted by the poor performance of a small number of investments, or even a single investment, particularly if a company experiences the need to write down the value of an investment.

Alpha: A measure of performance on a risk-adjusted

Market Neutral Allocation: An investment strategy that aims to produce almost the same profit regardless of market circumstances.

For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating™ for a fund is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating™ metrics. As of September 30, 2018, the ALPS Red Rocks Listed Private Equity Fund was rated against the following numbers of World Small/Mid Stock Funds over the following time periods: 114 funds in the last three years, 97 funds in the last five years and 58 funds in the last ten years. With respect to these World Small/Mid Stock Funds, ALPS Red Rocks Listed Private Equity Fund Investor Class Shares received a Morningstar Rating™ of 3 stars for the overall, three-year and five-year periods and 2 stars for the 10 year period; C Shares received a Morningstar Rating™ of 3 stars for the overall, 2 stars for the three-year period, 3 stars for the five-year period and 2 star for the 10 year period; I Shares received a Morningstar Rating™ of 3 stars for the overall and three-year period, 4 stars for the five-year period and 2 stars for the ten year period; and R Shares received a Morningstar Rating™ of 2 stars for the overall and three-year period, 3 stars for the five-year period and 2 stars for the 10 year period.
