RiverFront Investment Group

RiverFront Investment Group is a global asset manager utilizing a dynamic investment approach with uncommon transparency. We are a registered investment advisor whose employees maintain majority ownership. RiverFront provides flexible, risk managed solutions optimized according to investment time horizons and risk tolerances.

Dynamic Investment Process

Global Strategic Allocation with Tactical Tilts

- 1 We design dynamic strategic allocation models.** Value drives our long-term allocation strategy. We believe the price you pay for an asset class is a key determinant of returns over time.
- 2 We tactically adjust the models.** This long-term strategy is then modified with tactical tilts designed to accommodate current market trends, putting greater weight on asset classes that have positive momentum. In other words, our asset allocation strategy seeks to combine our judgment of value with our sense of momentum, making our largest allocations when our evaluation of value and momentum are aligned.
- 3 We offer "the world in one account",** meaning that we research and implement investments on a global basis. To do this successfully, we implement fundamental and technical disciplines into our security selection process.
- 4 We practice both proactive and reactive risk management** which includes putting tactical plans in place for a myriad of scenarios.

Description

The RiverFront Asset Allocation Growth & Income (the "Fund") seeks to achieve long-term growth and income through a combination of capital appreciation and rising dividend payments that exceeds the average yield on global stocks generally. The Fund is designed for investors seeking current income and the potential for their income level to grow over time, while managing risk. The Fund will typically have a substantial allocation to dividend paying stocks; therefore, investors in this Fund should be able to assume a certain degree of portfolio volatility. The portfolio is expected to have between 60% and 90% of its assets invested in a diversified basket of dividend paying stocks, with the balance of the Fund (typically 10%-40%) invested in various other income-paying securities, including corporate debt. The Fund's management team may depart from the targeted allocation range when they feel that certain sectors of the financial markets are over- or under-valued.

Important Disclosures & Definitions

An investor should consider investment objectives, risks, charges and expenses carefully before investing. To obtain a prospectus, which contains this and other information, please contact your investment professional. Read the prospectus carefully before investing.

The performance of the Fund relative to its benchmark will depend largely on the decisions of the RiverFront Investment Group, LLC (the "Sub-Advisor" or "RiverFront") as to strategic asset allocation and tactical adjustments made to the asset allocation. At times, RiverFront's judgments as to the asset classes in which the Fund should invest may prove to be wrong, as some asset classes may perform worse than others or the equity markets generally from time to time or for extended periods of time. The performance of the Fund is related to the economic sectors that RiverFront may choose to emphasize or deemphasize from time to time, as well as to the individual securities selected by RiverFront within those sectors. The investment returns for particular economic sectors will fluctuate and may be lower than other sectors. In addition, the individual securities chosen for investment within a particular sector may underperform other securities within that same sector. Certain stocks selected for the Fund's portfolio may decline in value more than the overall stock markets.

3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating™ for a fund is derived from a weighted average of the performance figures associated with its three-, five- and ten-year (if applicable) Morningstar Rating™ metrics. As of September 30, 2018, the RiverFront Asset Allocation Growth & Income was rated against the following numbers of World Allocation Funds over the following time periods: 399 funds in the last three years and 344 funds in the last five years. With respect to these World Allocation Funds, RiverFront Asset Allocation Growth & Income Investor Class Shares received a Morningstar Rating™ of 5 stars for the overall, three-year and five-year periods; C Shares received a Morningstar Rating™ of 4 stars for the overall, three-year and five-year periods; and I Shares received a Morningstar Rating™ of 5 stars for the overall, three-year and five-year periods.
