

Statement of Additional Information

Dated October 1, 2025

This Statement of Additional Information (“SAI”) is not a prospectus. It should be read in conjunction with the Prospectus dated October 1, 2025, as supplemented, for the ALPS | O’Shares International Developed Quality Dividend ETF (formerly, ALPS | O’Shares Europe Quality Dividend ETF) (the “Fund”), a series of the ALPS ETF Trust (the “Trust”), as it may be revised from time to time. Capitalized terms used herein that are not defined have the same meaning as in the Prospectus, unless otherwise noted. A copy of the Prospectus may be obtained without charge by writing to the Trust’s distributor, ALPS Portfolio Solutions Distributor, Inc. (the “Distributor”), or by calling toll free 866.759.5679.

The Fund’s most recent audited financial statements are incorporated by reference from the Trust’s Form [N-CSR](#) for its most recently completed fiscal year into this SAI and can be obtained free of charge by calling the toll-free number printed above.

APPENDIX A - ALPS ADVISORS PROXY VOTING POLICY	A-1

GENERAL DESCRIPTION OF THE TRUST AND THE FUND

The Trust was organized as a Delaware statutory trust on September 13, 2007 and is authorized to have multiple series or portfolios. The Trust is an open-end management investment company, registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The offering of the Fund’s shares is registered under the Securities Act of 1933, as amended (the “Securities Act”). This SAI relates to the ALPS | O’Shares International Developed Quality Dividend ETF (formerly, ALPS | O’Shares Europe Quality Dividend ETF) (the “Fund”). The Fund is an exchange-traded fund (commonly referred to as an “ETF”). ETFs are funds that trade like other publicly-traded securities. Similar to shares of a mutual fund, each share of the Fund represents a partial ownership in an underlying portfolio of securities. The shares of the Fund are referred to herein as “Shares” or “Fund Shares.”

The 1940 Act classifies management investment companies as either diversified or non-diversified. The Fund is classified as “diversified.”

The Fund is managed by ALPS Advisors, Inc. (“ALPS Advisors” or the “Adviser”).

The Fund will offer and issue Shares at net asset value (“NAV”) only in aggregations of a specified number of Shares (each a “Creation Unit” or a “Creation Unit Aggregation”), generally in exchange for a basket of securities (the “Deposit Securities”), together with the deposit of a specified cash payment (the “Cash Component”). The Trust reserves the right to offer a “cash” option for creations and redemptions of Fund Shares. In each instance of such cash creations or redemptions, transaction fees may be imposed that will be higher than the transaction fees associated with in-kind creations or redemptions. In all cases, such fees will be limited in accordance with the requirements of the Securities and Exchange Commission (the “SEC”) applicable to management investment companies offering redeemable securities.

The Fund’s Shares are listed on the Cboe BZX Exchange, Inc. (the “Cboe BZX” or the “Exchange”) under the trading symbol OEFA.

Fund Shares will trade on an Exchange at market prices that may be below, at or above NAV. Shares are redeemable only in Creation Unit Aggregations and, generally, in exchange for portfolio securities and a specified cash payment. Creation Units are aggregations of 25,000 Shares. In the event of the liquidation of the Fund, the Trust may transact in Shares in less than a Creation Unit.

Fund Shares may be issued in advance of receipt of Deposit Securities subject to various conditions including a requirement to maintain on deposit with the Trust cash at least equal to 115% of the market value of the missing Deposit Securities. See the “Creation and Redemption of Creation Unit Aggregations” section.

EXCHANGE LISTING AND TRADING

The Fund’s shares have been approved for listing and trading on an Exchange. The Fund’s Shares may trade on an Exchange at prices that may differ to some degree from its NAV. There can be no assurance that the requirements of an Exchange necessary to maintain the listing of Shares of the Fund will continue to be met.

There can be no assurance that the requirements of the Cboe BZX necessary to maintain the listing of Shares of the Fund will continue to be met. The Exchange may, but is not required to, remove the Shares of the Fund from listing if (i) the Exchange becomes aware that the Fund is no longer eligible to operate in reliance on Rule 6c-11 under the 1940 Act; (ii) the Fund no longer complies with the requirements set forth in the applicable rules governing the listing of the Fund on the Exchange; (iii) following the initial 12-month period beginning at the commencement of trading of the Fund, there are fewer than 50 beneficial holders of the Shares of the Fund for 30 or more consecutive trading days; or (iv) such other event shall occur or condition exist that, in the opinion of the Exchange, makes further dealings on the Exchange inadvisable. The Exchange will remove the Shares of the Fund from listing and trading upon termination of the Fund.

As in the case of other stocks traded on the Exchanges, broker's commissions on transactions will be based on negotiated commission rates at customary levels.

The Trust reserves the right to adjust the price levels of the Shares in the future to help maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the Fund.

INVESTMENT RESTRICTIONS AND POLICIES

The investment restrictions set forth below have been adopted by the Board of Trustees of the Trust (the "Board") as fundamental policies that cannot be changed with respect to the Fund without the affirmative vote of the holders of a majority (as defined in the 1940 Act) of the outstanding voting securities of the Fund. The investment objective of the Fund and all other investment policies or practices of the Fund are considered by the Trust not to be fundamental and accordingly may be changed without shareholder approval. For purposes of the 1940 Act, a "majority of the outstanding voting securities" means the lesser of the vote of (i) 67% or more of the Shares of the Fund present at a meeting, if the holders of more than 50% of the outstanding Shares of the Fund are present or represented by proxy, or (ii) more than 50% of the Shares of the Fund. Because the Fund is classified as a diversified fund, the Fund may not, with respect to 75% of its total assets, purchase the securities of any issuer (except cash and cash items, securities issued or guaranteed by the U.S. government, its agencies or instrumentalities, or securities of other investment companies) if, as a result (i) more than 5% of the Fund's total assets would be invested in the securities of that issuer or (ii) the Fund would hold more than 10% of the outstanding voting securities of the issuer. A diversified fund may not change to a non-diversified fund without shareholder approval.

Except for restriction (2) and (4)(iii) below, any limitation that involves a maximum percentage shall not be considered violated unless an excess over the percentage occurs immediately after, and is caused by, an acquisition or encumbrance of securities or assets of, or borrowings by, the Fund. With respect to the Fund's fundamental investment restriction (7) below, asset coverage of at least 300% (as defined in the 1940 Act), inclusive of any amounts borrowed, must be maintained at all times.

As a matter of fundamental policy, the Fund (except as otherwise noted below) may not:

(1) Invest 25% or more of the value of its total assets in securities of issuers in any one industry or group of industries, except to the extent that the Fund's Underlying Index concentrates in an industry or group of industries. This restriction does not apply to obligations issued or guaranteed by the U.S. Government, its agencies or instrumentalities.

(2) Borrow money, except that the Fund may (i) borrow money from banks for temporary or emergency purposes (but not for leverage or the purchase of investments) up to 10% of its total assets and (ii) make other investments or engage in other transactions permissible under the 1940 Act that may involve a borrowing, provided that the combination of (i) and (ii) shall not exceed 33 1/3% of the value of the Fund's total assets (including the amount borrowed), less the Fund's liabilities (other than borrowings).

(3) Act as an underwriter of another issuer's securities, except to the extent that the Fund may be deemed to be an underwriter within the meaning of the Securities Act of 1933 in connection with the purchase and sale of portfolio securities.

(4) Make loans to other persons, except through (i) the purchase of debt securities permissible under the Fund's investment policies, (ii) repurchase agreements or (iii) the lending of portfolio securities, provided that no such loan of portfolio securities may be made by the Fund if, as a result, the aggregate of such loans would exceed 33 1/3% of the value of the Fund's total assets.

(5) Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the Fund (i) from purchasing or selling options, futures contracts or other derivative instruments, or (ii) from investing in securities or other instruments backed by physical commodities).

(6) Purchase or sell real estate unless acquired as a result of ownership of securities or other instruments (but this shall not prohibit the Fund from purchasing or selling securities or other instruments backed by real estate or of issuers engaged in real estate activities).

(7) Issue senior securities, except as permitted under the 1940 Act.

In addition to the foregoing fundamental investment policies, the Fund is also subject to the following non-fundamental restrictions and policies, which may be changed at any time by the Board of Trustees without shareholder approval. The Fund may not:

(1) Sell securities short, unless the Fund owns or has the right to obtain securities equivalent in kind and amount to the securities sold short at no added cost, and provided that transactions in options, futures contracts, options on futures contracts, or other derivative instruments are not deemed to constitute selling securities short.

(2) Purchase securities on margin, except that the Fund may obtain such short-term credits as are necessary for the clearance of transactions; and provided that margin deposits in connection with futures contracts, options on futures contracts or other derivative instruments shall not constitute purchasing securities on margin.

(3) Purchase securities of open-end or closed-end investment companies except in compliance with the 1940 Act.

(4) Invest in illiquid securities if, as a result of such investment, more than 15% of the Fund's net assets would be invested in illiquid securities.

(5) Invest in direct interests in oil, gas or other mineral exploration programs or leases; however, the Fund may invest in securities of issuers that engage in these activities.

INVESTMENT POLICIES

The investment objective and principal investment strategies for the Fund are provided in the Prospectus. The Fund's investment objective is a non-fundamental policy that can be changed by the Board of Trustees without approval by shareholders. The Fund may not invest in all of the investments listed below. The Fund uses investment techniques commonly used by other exchange traded funds.

INVESTMENT POLICIES AND RISKS

A discussion of the risks associated with an investment in the Fund is contained in the Fund's Prospectus under the headings "Principal Investment Risks," "Principal Risks of Investing in the Fund" and "Additional Risk Considerations." The discussion below supplements, and should be read in conjunction with, such sections of the Fund's Prospectus.

General Considerations and Risks

Investment in the Fund should be made with an understanding that the value of the portfolio of securities held by the Fund may fluctuate in accordance with changes in the financial condition of the issuers of the portfolio securities, the value of common stocks generally and other factors.

The Fund is not actively managed by traditional methods and therefore the adverse financial condition of any one issuer will not result in the elimination of its securities from the portfolio securities held by the Fund unless the securities of such issuer are removed from the Underlying Index.

An investment in the Fund should also be made with an understanding that the Fund will not be able to replicate exactly the performance of its respective Underlying Index because the total return generated by its portfolio securities will be reduced by transaction costs incurred in adjusting the actual balance of such securities and other Fund expenses, whereas such transaction costs and expenses are not included in the calculation of each Underlying Index. It is also possible that for short periods of time, the Fund may not fully replicate the performance of its respective Underlying Index due to the temporary unavailability of certain Underlying Index securities in the secondary market or due to other extraordinary circumstances. Such events are unlikely to continue for an extended period of time because the Fund is required to correct such imbalances by means of adjusting the composition of its portfolio securities.

Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer, have generally inferior rights to receive payments from the issuer in comparison with the rights of creditors of, or holders of debt obligations or preferred stocks issued by, the issuer. Further, unlike debt securities which typically have a stated principal amount payable at maturity (whose value, however, will be subject to market fluctuations prior thereto), or preferred stocks which typically have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity. Common stock values are subject to market fluctuations as long as the common stock remains outstanding.

Dividend Risk. There is no guarantee that the issuer of the stocks held by the Fund will declare dividends in the future or that if declared, they will either remain at current levels or increase over time.

Loans of Portfolio Securities. The Fund may lend investment securities to approved borrowers. Any gain or loss on the market price of the securities loaned that might occur during the term of the loan would be for the account of the Fund. These loans cannot exceed 33 1/3% of the Fund's total assets.

Approved borrowers are brokers, dealers, domestic and foreign banks, or other financial institutions that meet credit or other requirements as established by the securities lending agent, so long as the terms, the structure and the aggregate amount of such loans are not inconsistent with the 1940 Act and the rules and regulations thereunder or interpretations of the SEC, which require that (a) the borrowers pledge and maintain with the Fund collateral consisting of cash, an irrevocable letter of credit issued by a bank, or securities issued or guaranteed by the U.S. Government having a value at all times of not less than 102% of the value of the securities loaned (on a "mark-to-market" basis, and maintained in an amount equal to at least 100% of the value of the portfolio securities being lent); (b) the loan be made subject to termination by the Fund at any time; and (c) the Fund receives reasonable interest on the loan. From time to time, the Fund may return a part of the interest earned from the investment of collateral received from securities loaned to the borrower and/or a third party securities lending agent that is unaffiliated with the Fund and that is acting as a finder.

Risks of Securities Lending. The Fund will not have the right to vote securities while they are on loan, but it will recall securities on loan if the Adviser determines that the shareholder meeting is called for purposes of voting on material events that could have a material impact on the Fund's loaned securities and for which the vote could be material to the Fund. The Fund would receive income in lieu of dividends on loaned securities and may, at the same time, generate income on the loan collateral or on the investment of any cash collateral.

Securities lending involves a risk of loss because the borrower may fail to return the securities in a timely manner or at all. If the borrower defaults on its obligation to return the securities loaned because of insolvency or other reasons, the Fund could experience delays and costs in recovering securities loaned or gaining access to the collateral. If the Fund is not able to recover the securities loaned, the Fund may sell the collateral and purchase a replacement security in the market. Lending securities entails a risk of loss to the Fund if, and to the extent that, the market value of the loaned securities increases and the collateral is not increased accordingly. Securities lending also involves exposure to operational risk (the risk of loss resulting from errors in the settlement and accounting process) and “gap risk” (the risk that the return on cash collateral reinvestments will be less than the fees paid to the borrower).

Any cash received by the Fund as collateral for loaned securities may be invested in short-term liquid fixed income securities or in money market or short-term mutual funds, or similar investment vehicles. The Fund bears the risk of such investments. Investing this cash subjects that investment to market appreciation or depreciation. For purposes of determining whether the Fund is complying with its investment policies, strategies and restrictions, the Fund or the Adviser will consider the loaned securities as assets of the Fund, but will not consider any collateral received as a Fund asset. The Fund will bear any loss on the investment of cash collateral. The Fund may have to pay the borrower a fee based on the amount of cash collateral. The Fund may pay lending fees to a party arranging the loan.

Regulations adopted by the global prudential regulators require counterparties that are part of U.S. or foreign global systemically important banking organizations to include contractual restrictions on close-out and cross-default in agreements relating to qualified financial contracts. Securities lending agreements are included in the category of qualified financial contracts (as well as repurchase agreements and agreements relating to swaps, currency forwards and other derivatives). The restrictions prevent the Fund from closing out a qualified financial contract during a specified time period (e.g., two days) if the counterparty is subject to resolution proceedings and prohibit the Fund from exercising default rights during that period due to a receivership or similar proceeding of an affiliate of the counterparty. Implementation of these requirements may increase credit and other risks to the Fund.

Senior Securities. In general, the Fund may not issue any class of senior security, except within the limitations of the 1940 Act. These limitations allow the Fund to (i) borrow from banks, provided that immediately following any such borrowing there is an asset coverage of at least 300% (the “Asset Coverage Requirement”) for all Fund borrowings, and (ii) engage in trading practices which could be deemed to involve the issuance of a senior security, including but not limited to options, futures, forward contracts, and reverse repurchase agreements.

Repurchase Agreements. The Fund may enter into repurchase agreements, which are agreements pursuant to which securities are acquired by the Fund from a third party with the understanding that they will be repurchased by the seller at a fixed price on an agreed date. These agreements may be made with respect to any of the portfolio securities in which the Fund is authorized to invest. Repurchase agreements may be characterized as loans secured by the underlying securities. The Fund may enter into repurchase agreements with (i) member banks of the Federal Reserve System having total assets in excess of \$500 million and (ii) securities dealers (“Qualified Institutions”). The Adviser will monitor the continued creditworthiness of Qualified Institutions.

The use of repurchase agreements involves certain risks. For example, if the seller of securities under a repurchase agreement defaults on its obligation to repurchase the underlying securities, as a result of its bankruptcy or otherwise, the Fund will seek to dispose of such securities, which action could involve costs or delays. If the seller becomes insolvent and subject to liquidation or reorganization under applicable bankruptcy or other laws, the Fund’s ability to dispose of the underlying securities may be restricted. Finally, it is possible that the Fund may not be able to substantiate its interest in the underlying securities. To minimize this risk, the securities underlying the repurchase agreement will be held by the custodian at all times in an amount at least equal to the repurchase price, including accrued interest. If the seller fails to repurchase the securities, the Fund may suffer a loss to the extent proceeds from the sale of the underlying securities are less than the repurchase price.

The resale price reflects the purchase price plus an agreed upon market rate of interest. The collateral is marked-to-market daily.

Reverse Repurchase Agreements. The Fund may enter into reverse repurchase agreements, which involve the sale of securities with an agreement to repurchase the securities at an agreed-upon price, date and interest payment and have the characteristics of borrowing. The securities purchased with the funds obtained from the agreement and securities collateralizing the agreement will have maturity dates no later than the repayment date. Generally, the effect of such transactions is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while in many cases the Fund is able to keep some of the interest income associated with those securities. Such transactions are advantageous if the Fund has an opportunity to earn a greater rate of return on the cash derived from these transactions than the interest cost of obtaining the same amount of cash. Opportunities to realize earnings from the use of the proceeds equal to or greater than the interest required to be paid may not always be available and the Fund intends to use the reverse repurchase technique only when the Adviser believes it will be advantageous to the Fund. The use of reverse repurchase agreements may exaggerate any interim increase or decrease in the value of the Fund's assets.

Money Market Instruments. The Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity. The instruments in which the Fund may invest include: (i) short-term obligations issued by the U.S. Government; (ii) negotiable certificates of deposit ("CDs"), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions; (iii) commercial paper rated at the date of purchase "Prime-1" by Moody's Investors Service, Inc. ("Moody's") or "A-1+" or "A-1" by Standard & Poor's or, if unrated, of comparable quality as determined by the Adviser; (iv) repurchase agreements; and (v) money market mutual funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Investment Companies. The Fund may invest in the securities of other investment companies, such as ETFs, money market funds, exchange-traded closed-end funds and exchange-traded business development companies. Under the 1940 Act, the Fund's investment in investment companies is limited to, subject to certain exceptions: (i) 3% of the total outstanding voting stock of any one investment company, (ii) 5% of the Fund's total assets with respect to any one investment company and (iii) 10% of the Fund's total assets of investment companies in the aggregate. Subject to exceptions in Section 12(d)(1) of the 1940 Act or rules thereunder, including Rule 12d1-4 under the 1940 Act, the Fund may invest in certain investment companies beyond the 3%/5%/10% limitations described above, subject to applicable conditions.

Illiquid Securities. The Fund may invest up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment). Illiquid securities include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets. The Fund's investments in restricted and illiquid securities may entail greater risk than investments in other types of securities. These securities may be more difficult to sell, particularly in times of market turmoil. Additionally, the market for certain investments deemed liquid at the time of purchase may become illiquid under adverse market or economic conditions. Illiquid securities may be more difficult to value. If the Fund is forced to sell an illiquid security to fund redemptions or for other cash needs, it may be forced to sell the security at a loss or for less than its fair value.

Futures and Options. The Fund may utilize exchange-traded futures and options contracts.

Futures contracts generally provide for the future sale by one party and purchase by another party of a specified amount of a commodity at a specified future time and at a specified price. Stock index futures contracts are settled daily with a payment by one party to the other of a cash amount based on the difference between the price of the stock index specified in the contract from one day to the next. Futures contracts are standardized as to maturity date and underlying instrument and are traded on futures exchanges.

Futures traders are required to make a good faith margin deposit in cash or U.S. government securities with a broker or custodian to initiate and maintain open positions in futures contracts. A margin deposit is intended to assure completion of the contract (delivery or acceptance of the underlying commodity or payment of the cash settlement amount) if it is not terminated prior to the specified delivery date. Brokers may establish deposit requirements which are higher than the exchange minimums. Futures contracts are customarily purchased and sold on margin deposits, which may range upward from less than 5% of the value of the contract being traded.

After a futures contract position is opened, the value of the contract is marked-to-market daily. If the futures contract price changes to the extent that the margin on deposit does not satisfy margin requirements, payment of additional “variation” margin will be required. Conversely, a change in the contract value may reduce the required margin, resulting in a repayment of excess margin to the contract holder. Variation margin payments are made to and from the futures broker for as long as the contract remains open. In such case, the Fund would expect to earn interest income on its margin deposits. Closing out an open futures position is done by taking an opposite position (“buying” a contract which has previously been “sold,” or “selling” a contract previously “purchased”) in an identical contract to terminate the position. Brokerage commissions are incurred when a futures contract position is opened or closed.

The Fund may use exchange-traded futures and options, together with positions in cash and money market instruments, in seeking to achieve their investment objective. Under such circumstances, the Adviser may seek to utilize other instruments that it believes to be correlated to the applicable Underlying Index components or a subset of the components.

An option on a futures contract, as contrasted with the direct investment in such a contract, gives the purchaser the right, in return for the premium paid, to assume a position in the underlying futures contract at a specified exercise price during a period of time prior to the expiration date or on a specified date or dates, depending on the option style. Upon exercise of an option, the delivery of the futures position by the writer of the option to the holder of the option will be accompanied by delivery of the accumulated balance in the writer’s futures margin account that represents the amount by which the market price of the futures contract exceeds (in the case of a call) or is less than (in the case of a put) the exercise price of the option on the futures contract. The potential for loss related to the purchase of an option on a futures contract is limited to the premium paid for the option plus transaction costs. Because the value of the option is fixed at the point of purchase, there are no daily cash payments by the purchaser to reflect changes in the value of the underlying contract; however, the value of the option changes daily and that change would be reflected in the NAV of the Fund. The potential for loss related to writing call options is unlimited. The potential for loss related to writing put options is limited only by the aggregate strike price of the put option less the premium received.

The Fund may purchase and write put and call options on futures contracts that are traded on a U.S. exchange as a hedge against changes in value of its portfolio securities, or in anticipation of the purchase of securities, and may enter into closing transactions with respect to such options to terminate existing positions. There is no guarantee that such closing transactions can be effected.

Restrictions on the Use of Futures Contracts, Options on Futures Contracts and Swaps. Pursuant to a claim for exemption filed with the Commodity Futures Trading Commission (“CFTC”) with regard to the operation of the Fund, the Adviser is excluded from the definition of “commodity pool” or “commodity pool operator” (“CPO”), under the Commodity Exchange Act (“CEA”), and is not subject to registration or regulation as such under the CEA. The Adviser is also exempt from registration as a “commodity trading advisor” with respect to its services as an investment adviser to the Fund. The CFTC has adopted certain regulatory changes that will subject the Adviser of an investment company to registration with the CFTC as a CPO if the investment company is unable to comply with certain trading and marketing limitations.

With respect to investments in swap transactions, commodity futures, commodity options or certain other derivatives used for purposes other than bona fide hedging purposes, an investment company must meet one of the following tests under the amended regulations for its adviser to claim an exclusion from the definition of CPO with regard to the operation of the investment company. First, the aggregate initial margin and premiums required to establish an investment company’s positions in such investments may not exceed five percent (5%) of the liquidation value of the investment company’s portfolio (after accounting for unrealized profits and unrealized losses on any such investments). Alternatively, the aggregate net notional value of such instruments, determined at the time of the most recent position established, may not exceed one hundred percent (100%) of the liquidation value of the investment company’s portfolio (after accounting for unrealized profits and unrealized losses on any such positions). In addition to meeting one of the foregoing trading limitations, the investment company may not market itself as a commodity pool or otherwise as a vehicle for trading in the commodity futures, commodity options or swaps and derivatives markets. In the event that the Adviser were required to register as a CPO with respect to the Fund, the disclosure and operations of the Fund would need to comply with all applicable CFTC regulations. Compliance with these additional registration and regulatory requirements would increase operational expenses. Other potentially adverse regulatory initiatives could also develop.

Swap Agreements. The Fund may enter into swap agreements. Swap agreements are contracts between parties in which one party agrees to make periodic payments to the other party (the “Counterparty”) based on the change in market value or level of a specified rate, index or asset. In return, the Counterparty agrees to make periodic payments to the first party based on the return of a different specified rate, index or asset. Swap agreements will usually be done on a net basis, the Fund receiving or paying only the net amount of the two payments. The net amount of the excess, if any, of the Fund’s obligations over its entitlements with respect to each swap is accrued on a daily basis and an amount of cash or highly liquid securities having an aggregate value at least equal to the accrued excess is maintained in an account at the Trust’s custodian bank.

The use of interest rate and index swaps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. These transactions generally do not involve the delivery of securities or other underlying assets or principal.

The use of swap agreements involves certain risks. For example, if the Counterparty under a swap agreement defaults on its obligation to make payments due from it, as a result of its bankruptcy or otherwise, the Fund may lose such payments altogether, or collect only a portion thereof, which collection could involve costs or delays.

Currency Transactions. The Fund invests in non-U.S. securities and does not expect to engage in currency transactions for the purpose of hedging against declines in the value of the Fund’s assets that are denominated in a foreign currency.

A forward currency contract is an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. A currency futures contract is a contract involving an obligation to deliver or acquire the specified amount of a specific currency, at a specified price and at a specified future time. Futures contracts may be settled on a net cash payment basis rather than by the sale and delivery of the underlying currency. Since foreign exchange transactions for the Fund are directed to the Fund's custodian, foreign exchange executions may be better or worse than these effected by other foreign currency dealers.

Risks of Derivatives. Derivatives are financial contracts whose value depends on, or is derived from, the value of an underlying asset, reference rate or index, and may relate to stocks, bonds, interest rates, currencies or currency exchange rates, commodities, and related indexes. The various derivative instruments that the Fund may use are described in more detail under "Futures and Options," "Swap Agreements," and "Currency Transactions" in this Statement of Additional Information. The Fund may, but is not required to, use derivative instruments for risk management purposes or as part of its investment strategies.

The Fund's use of derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Derivatives are subject to a number of risks including leverage risk, fund liquidity risk, market liquidity risk, market risk, credit risk, default risk, counterparty risk, correlation risk, management risk and legal risk. They also involve the risk of mispricing or improper valuation and the risk that changes in the value of the derivative may not correlate exactly with the change in the value of the underlying asset, rate or index. Also, suitable derivative transactions may not be available in all circumstances and there can be no assurance that the Fund will engage in these transactions to reduce exposure to other risks when that would be beneficial.

Participation in the options or futures markets, as well as the use of various swap instruments and forward contracts, involves investment risks and transaction costs to which the Fund would not be subject absent the use of these strategies. Risks inherent in the use of options, futures contracts, options on futures contracts, forwards and swaps include: (i) imperfect correlation between the price of options and futures contracts and options thereon and movements in the prices of the securities being hedged; (ii) the fact that skills needed to use these strategies are different from those needed to select non-derivative portfolio securities; (iii) the potential absence of a liquid secondary market for any particular instrument at any time; (iv) the possible need to defer closing out certain positions to avoid adverse tax consequences; (v) for swaps, additional credit risk, the risk of counterparty default, the risk of failing to correctly evaluate the creditworthiness of the company on which the swap is based, and the risk that there is insufficient documentation, insufficient capacity or authority of the counterparty to enter into the swap or perform under the swap, or that the contract is unenforceable; and (vi) the possible inability of the Fund to purchase or sell a derivative at a time that otherwise would be favorable for it to do so, or the possible need for the Fund to sell a security at a disadvantageous time, due to the need to make payments of margin, collateral or settlement payments for a particular derivative instrument.

The Fund could lose the entire amount it invests in purchasing options, and the loss from investing in other derivatives is potentially unlimited. There also is no assurance that a liquid secondary market will exist for futures contracts and options in which the Fund may invest. The Fund limits its investment in futures contracts so that the notional value (meaning the stated contract value) of the futures contracts does not exceed the net assets of the Fund.

The Fund may also be unable to close out its derivatives positions when desired. Investments in derivatives can cause the Fund to be more volatile and can result in significant losses.

Because the markets for certain derivative instruments (including markets located in foreign countries) are relatively new and still developing, suitable derivatives transactions may not be available in all circumstances. Upon the expiration of a particular contract, the Adviser or a Sub-Adviser may wish to retain the Fund's position in the derivative instrument by entering into a similar contract, but may be unable to do so if the counterparty to the original contract is unwilling to enter into the new contract and no other suitable counterparty can be found. There is no assurance that the Fund will engage in derivatives transactions at any time or from time to time. The Fund's ability to use derivatives may also be limited by certain regulatory and tax considerations.

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) and related regulatory developments require the clearing and exchange-trading of certain standardized over-the-counter (“OTC”) derivative instruments that the CFTC and SEC defined as “swaps” and “security-based swaps,” respectively. Mandatory exchange-trading and clearing is occurring on a phased-in basis based on CFTC approval of contracts for central clearing and exchange trading. In a cleared swap, the Fund’s ultimate counterparty is a central clearinghouse rather than a swap dealer, bank or other financial institution. The Fund enters into cleared swaps through an executing broker. Such transactions are then submitted for clearing and, if cleared, will be held at regulated futures commission merchants (“FCMs”) that are members of the clearinghouse that serves as the central counterparty. When the Fund enters into a cleared swap, it must deliver to the central counterparty (via an FCM) an amount referred to as “initial margin.” Initial margin requirements are determined by the central counterparty, but an FCM may require additional initial margin above the amount required by the central counterparty. During the term of the swap agreement, a “variation margin” amount may also be required to be paid by the Fund or may be received by the Fund in accordance with margin controls set for such accounts, depending upon changes in the price of the underlying reference asset subject to the swap agreement. At the conclusion of the term of the swap agreement, if the Fund has a loss equal to or greater than the margin amount, the margin amount is paid to the FCM along with any loss in excess of the margin amount. If the Fund has a loss of less than the margin amount, the excess margin is returned to the Fund. If the Fund has a gain, the full margin amount and the amount of the gain is paid to the Fund.

Central clearing is designed to reduce counterparty credit risk compared to uncleared swaps because central clearing interposes the central clearinghouse as the counterparty to each participant’s swap, but it does not eliminate those risks completely. There is also a risk of loss by the Fund of the initial and variation margin deposits in the event of bankruptcy or insolvency of the FCM with which the Fund has an open position in a swap contract. The assets of the Fund may not be fully protected in the event of the bankruptcy or insolvency of the FCM or central counterparty because the Fund might be limited to recovering only a pro rata share of all available funds and margin segregated on behalf of an FCM’s customers or central counterparty’s clearing members. If the FCM does not provide accurate reporting, the Fund is also subject to the risk that the FCM could use the Fund’s assets, which are held in an omnibus account with assets belonging to the FCM’s other customers, to satisfy its own financial obligations or the payment obligations of another customer to the central counterparty. Certain swaps have begun trading on exchanges called swap execution facilities. Exchange-trading is expected to increase liquidity of swaps trading.

With respect to cleared swaps, the Fund may not be able to obtain as favorable terms as it would be able to negotiate for an uncleared swap. In addition, an FCM may unilaterally impose position limits or additional margin requirements for certain types of swaps in which the Fund may invest. Central counterparties and FCMs generally can require termination of existing cleared swap transactions at any time, and can also require increases in margin above the margin that is required at the initiation of the swap agreement. Margin requirements for cleared swaps vary on a number of factors, and the margin required under the rules of the clearinghouse and FCM may be in excess of the collateral required to be posted by the Fund to support its obligations under a similar uncleared swap. However, regulators are expected to adopt rules imposing certain margin requirements, including minimums, on uncleared swaps in the near future, which could change this comparison.

The Fund is also subject to the risk that, after entering into a cleared swap with an executing broker, no FCM or central counterparty is willing or able to clear the transaction. In such an event, the central counterparty would void the trade. Before the Fund can enter into a new trade, market conditions may become less favorable to the Fund.

The SEC and its staff have rescinded and withdrawn previous guidance and relief regarding asset segregation and coverage transactions. A fund's trading of derivatives and other transactions that create future payment or delivery obligations is now subject to a value-at-risk ("VaR") leverage limit and certain derivatives risk management program and reporting requirements. Generally, these requirements apply unless a fund satisfies a "limited derivatives users" exception that is included in the final rule. When a fund trades reverse repurchase agreements or similar financing transactions, including certain tender option bonds, it needs to aggregate the amount of indebtedness associated with the reverse repurchase agreements or similar financing transactions with the aggregate amount of any other senior securities representing indebtedness (e.g., bank borrowings, if applicable) when calculating a fund's asset coverage ratio or treat all such transactions as derivatives transactions. Reverse repurchase agreements or similar financing transactions aggregated with other indebtedness do not need to be included in the calculation of whether a fund satisfies the limited derivatives users exception, but for funds subject to the VaR testing requirement, reverse repurchase agreements and similar financing transactions must be included for purposes of such testing whether treated as derivatives transactions or not. SEC guidance regarding the use of securities lending collateral may limit securities lending activities. These requirements may limit the ability of a fund to use derivatives, short sales, and reverse repurchase agreements and similar financing transactions as part of its investment strategies. These requirements may increase the cost of a fund's investments and cost of doing business, which could adversely affect investors. The Adviser cannot predict the effects of these regulations on the funds. The Adviser intends to monitor developments and seeks to manage the fund in a manner consistent with achieving the fund's investment objective.

Risks of Futures and Options Transactions. Positions in futures contracts and options may be closed out only on an exchange which provides a secondary market therefore. However, there can be no assurance that a liquid secondary market will exist for any particular futures contract or option at any specific time. Thus, it may not be possible to close a futures or options position. In the event of adverse price movements, the Fund would continue to be required to make daily cash payments to maintain its required margin. In such situations, if the Fund has insufficient cash, it may have to sell portfolio securities to meet daily margin requirements at a time when it may be disadvantageous to do so. In addition, the Fund may be required to make delivery of the instruments underlying futures contracts it has sold.

The Fund will minimize the risk that it will be unable to close out a futures or options contract by only entering into futures and options for which there appears to be a liquid secondary market.

The risk of loss in trading futures contracts or uncovered call options in some strategies (e.g., selling uncovered index futures contracts) is potentially unlimited. The Fund does not plan to use futures and options contracts, when available, in this manner. The risk of loss in a futures position may still be large, as traditionally measured, due to the low margin deposits required. In many cases, a relatively small price movement in a futures contract may result in immediate and substantial loss or gain to the investor relative to the size of a required margin deposit. The Fund, however, intends to utilize futures and options contracts in a manner designed to limit their risk exposure to that which is comparable to what they would have incurred through direct investment in securities. Utilization of futures transactions by the Fund involves the risk of imperfect or even negative correlation to its Underlying Index if the index underlying the futures contracts differs from the Underlying Index. There is also the risk of loss by the Fund of margin deposits in the event of bankruptcy or insolvency of a broker with whom the Fund has an open position in the futures contract or option.

Certain financial futures exchanges limit the amount of fluctuation permitted in futures contract prices during a single trading day. The daily limit establishes the maximum amount that the price of a futures contract may vary either up or down from the previous day's settlement price at the end of a trading session. Once the daily limit has been reached in a particular type of contract, no trades may be made on that day at a price beyond that limit. The daily limit governs only price movement during a particular trading day and therefore does not limit potential losses, because the limit may prevent the liquidation of unfavorable positions. Futures contract prices have occasionally moved to the daily limit for several consecutive trading days with little or no trading, thereby preventing prompt liquidation of futures positions and subjecting some futures traders to substantial losses.

Risks of Swap Agreements. Bi-lateral swap agreements are subject to the risk that the swap counterparty will default on its obligations. If such a default occurs, the Fund will have contractual remedies pursuant to the agreements related to the transaction, but such remedies may be subject to bankruptcy and insolvency laws which could affect the Fund's rights as a creditor. Some interest rate and credit default swaps are currently subject to central clearing and exchange trading. Cleared swaps are transacted through FCMs that are members of central clearinghouses with the clearinghouse serving as a central counterparty similar to transactions in futures contracts. Although exchange-trading and clearing decreases the counterparty risk involved in bi-laterally negotiated contracts and increase market liquidity, exchange-trading and clearing do not make the contracts risk-free.

The use of interest-rate and index swaps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. The use of a swap requires an understanding not only of the referenced asset, reference rate, or index but also of the swap itself, without the benefit of observing the performance of the swap under all possible market conditions. These transactions generally do not involve the delivery of securities or other underlying assets or principal.

It is possible that developments in the swaps market, including government regulation, could adversely affect the Fund's ability to terminate existing swap agreements or to realize amounts to be received under such agreements.

Where swap agreements are two party contracts that may be subject to contractual restrictions on transferability and termination and because they may have terms of greater than seven days, they may be considered to be illiquid and subject to the Fund's limitation on investments in illiquid securities. To the extent that a swap is not liquid, it may not be possible to initiate a transaction or liquidate a position at an advantageous time or price, which may result in significant losses. Like most other investments, swap agreements are subject to the risk that the market value of the instrument will change in a way detrimental to the Fund's interest.

Bi-lateral swap agreements may be subject to contractual restrictions on transferability and termination and may have terms of greater than seven days, and thus, may be considered to be illiquid and subject to the Fund's limitation on investments in illiquid securities. To the extent that a swap is not liquid, it may not be possible to initiate a transaction or liquidate a position at an advantageous time or price, which may result in significant losses. Like most other investments, swap agreements are subject to the risk that the market value of the instrument will change in a way detrimental to the Fund's interest.

If the Fund uses a swap as a hedge against or as a substitute for, a portfolio investment, the Fund will be exposed to the risk that the swap will have or will develop imperfect or no correlation with the portfolio investment. This could cause substantial losses for the Fund. While hedging strategies involving swap instruments can reduce the risk of loss, they can also reduce the opportunity for gain or even result in losses by offsetting favorable price movements in other Fund investments. Many swaps are complex and are often valued subjectively.

Credit Default Swaps. The Fund may enter into credit default swap contracts for hedging purposes or to add leverage to its portfolio. When used for hedging purposes, the Fund would be the buyer of a credit default swap contract. In that case, the Fund would be entitled to receive the par (or other agreed-upon) value of a referenced debt obligation, index or other investment from the counterparty to the contract in the event of a default by a third party, such as a U.S. or foreign issuer, on the referenced debt obligation. In return, the Fund would pay to the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, the Fund would have spent the stream of payments and received no benefit from the contract. When the Fund is the seller of a credit default swap contract, it receives the stream of payments but is obligated to pay upon default of the referenced debt obligation. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total assets, the Fund would be subject to investment exposure on the notional amount of the swap.

In addition to the risks applicable to derivatives generally, credit default swaps involve special risks because they are difficult to value, are highly susceptible to liquidity and credit risk, and generally pay a return to the party that has paid the premium only in the event of an actual default by the issuer of the underlying obligation, as opposed to a credit downgrade or other indication of financial difficulty.

Credit default swaps may be subject to regulation by the CFTC, SEC or both. Both the CFTC and the SEC have issued guidance and relief regarding the implementation of various provisions of the Dodd-Frank Act relating to the use of swaps. Further action by the CFTC or SEC may affect the Fund's ability to use credit default swaps or may require additional disclosure by the Fund.

Warrants and Rights. The Fund may invest in warrants and rights. Warrants are securities that are usually issued together with a debt security or preferred stock and that give the holder the right to buy a proportionate amount of common stock at a specified price until a stated expiration date. Buying a warrant generally can provide a greater potential for profit or loss than an investment of equivalent amounts in the underlying common stock. The market value of a warrant does not necessarily move with the value of the underlying securities. If a holder does not sell the warrant, it risks the loss of its entire investment if the market price of the underlying security does not, before the expiration date, exceed the exercise price of the warrant. Investing in warrants is a speculative activity. Warrants pay no dividends and confer no rights (other than the right to purchase the underlying securities) with respect to the assets of the issuer. A right is a privilege granted, typically to existing shareholders of a corporation, to subscribe for shares of a new issue of stock before it is issued. Rights normally have a short life, usually two to four weeks, may be freely transferable and generally entitle the holder to buy the new common stock at a lower price than the public offering price.

Cybersecurity Risk. In connection with the increased use of technologies, including cloud technology, and the dependence on computer systems to perform necessary business functions, the Fund has become potentially more susceptible to operational, information security, and related risks due to the possibility of cyber-attacks or other incidents. Cyber incidents may result from deliberate attacks (such as cyber extortion) or unintentional events. Cyber-attacks include, but are not limited to, infection by computer viruses or other malicious software code, gaining unauthorized access to systems, networks, or devices that are used to service the Fund's operations through hacking or other means for the purpose of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber-attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks (which can make a website unavailable) on the Fund's website. In addition, authorized persons could inadvertently or intentionally release confidential or proprietary information stored on the Fund's systems. Recent geopolitical tensions may have increased the scale and sophistication of deliberate cyber attacks and other disruptions, particularly from nation-states or entities with nation-state backing.

Cyber-attacks have the potential to interfere with the processing of Authorized Participant transactions and shareholder transactions on the Exchanges. Furthermore, cyber security failures or breaches by the Fund's service providers (including, but not limited to, the adviser, distributor, custodian, transfer agent, financial intermediaries, and sub-adviser (if applicable)) may cause disruptions and impact the service providers' and the Fund's business operations, potentially resulting in financial losses, the inability of Fund shareholders to transact business and the Fund to process transactions, inability to calculate the Fund's NAV, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, and/or additional compliance costs. The Fund and its shareholders could be negatively impacted as a result of successful cyber-attacks against, or security breakdowns of, the Fund or its third-party service providers.

As technology advances, there has been a trend toward machine driven and artificially intelligent trading systems. Regulators of financial markets have become increasingly focused on the potential impact of artificial intelligence on investment activities and may, in the future, issue regulations that affect the use of artificial intelligence in trading activities. Moreover, advancements in artificial intelligence and other technologies may result in the introduction of errors, defects or security vulnerabilities, which can go undetected.

The Fund may incur substantial costs to prevent or address cyber incidents in the future. In addition, there is a possibility that certain risks have not been adequately identified or prepared for. Furthermore, the Fund cannot directly control any cyber security plans and systems put in place by third party service providers. Cyber security risks are also present for issuers of securities in which the Fund invests, which could result in material adverse consequences for such issuers, and may cause the Fund's investment in such securities to lose value.

Future Developments. The Board may, in the future, authorize the Fund to invest in securities and investments other than those listed in this SAI and in the Fund's Prospectus, provided they are consistent with the Fund's investment objective and do not violate any fundamental investment restrictions or policies, and do not present material risks other than those listed in this SAI and/or the Fund's Prospectuses, as those may be amended or supplemented from time to time.

Risk of Investing in Europe. Investing in European countries exposes the Fund to the economic and political risks associated with Europe in general and the specific European countries in which it invests. The economies and markets of European countries are often closely connected and interdependent, and events in one European country can have an adverse impact on other European countries. The Fund may make investments in securities of issuers that are domiciled in, or have significant operations in, member countries of the Economic and Monetary Union of the European Union (the "EU"), which requires member countries to comply with restrictions on inflation rates, deficits, interest rates, debt levels and fiscal and monetary controls, each of which may significantly affect every country in Europe. Decreasing imports or exports, changes in governmental or EU regulations on trade, changes in the exchange rate of the euro (the common currency of certain EU countries), the default or threat of default by an EU member country on its sovereign debt, and/or an economic recession in an EU member country may have a significant adverse effect on the economies of EU member countries and their trading partners. Although certain European countries do not use the euro, many of these countries are obliged to meet the criteria for joining the euro zone. Consequently, these countries must comply with many of the restrictions noted above.

The European financial markets have experienced volatility and adverse trends in recent years due to concerns about economic downturns, rising government debt levels and the possible default of government debt in several European countries, including Greece, Ireland, Italy, Portugal and Spain. In order to prevent further economic deterioration, certain countries, without prior warning, can institute "capital controls." Countries may use these controls to restrict volatile movements of capital entering and exiting their country. Such controls may negatively affect the Fund's investments. A default or debt restructuring by any European country would adversely impact holders of that country's debt and sellers of credit default swaps linked to that country's creditworthiness, which may be located in countries other than those listed above. In addition, the credit ratings of certain European countries were downgraded in the recent past. These downgrades may result in further deterioration of investor confidence. These events have adversely affected the value and exchange rate of the euro and may continue to significantly affect the economies of every country in Europe, including countries that do not use the euro and non-EU member countries. Responses to the financial problems by European governments, central banks and others, including austerity measures and reforms, may not produce the desired results, may result in social unrest and may limit future growth and economic recovery or have other unintended consequences. Further defaults or restructurings by governments and other entities of their debt could have additional adverse effects on economies, financial markets and asset valuations around the world.

In 2020, the United Kingdom (“UK”) withdrew from the EU. Uncertainty relating to the long-term potential consequences, of the UK’s withdrawal, such as how new trade agreements will be conducted, and whether the UK’s exit will increase the likelihood of other countries also departing the EU, may have adverse effects on the UK and EU economies. The negative impact on not only the UK and European economies, but the broader global economy, could be significant, potentially resulting in increased volatility and illiquidity and lower economic growth for companies that rely significantly on Europe for their business activities and revenues, and countries whose economies rely on international trade. Any further exits from the EU, or the possibility of such exits, would likely cause additional market disruption globally and introduce new legal and regulatory uncertainties. In addition, Russia’s recent military incursions in Ukraine have led to and may continue to lead to additional sanctions being levied by the United States, European Union and other countries against Russia. Russia’s military incursion and the resulting sanctions could adversely affect global energy and financial markets and thus could affect the value of the Fund’s investments, even beyond any direct exposure the Fund may have to Russian issuers or the adjoining geographic regions. While many countries in western Europe are considered to have developed markets, many eastern European countries are less developed, and investments in eastern European countries, even if denominated in Euros, may involve special risks associated with investments in emerging markets.

Master Limited Partnerships. The Fund may invest in master limited partnerships (“MLPs”) which are publicly traded partnerships (or similar entities, such as limited liability companies) primarily engaged in the transportation, storage, processing, refining, marketing, exploration, production, and mining of minerals and natural resources. Their interests, or units, trade on public securities exchanges exactly like the shares of a corporation, without entity level taxation. MLPs generally have two classes of owners, one or more general partners and the limited partners (i.e., investors). The general partner typically controls the operations and management of the MLP through an equity interest in the MLP plus, in many cases, ownership of common units and subordinated units. Limited partners typically own the remainder of the partnership, through ownership of common units, and have a limited role in the partnership’s operations and management. In certain instances, creditors of an MLP would have the right to seek a return of capital that had been distributed to a limited partner. The right of an MLP’s creditors would continue even after the Fund had sold its investment in the partnership. MLPs typically invest in real estate, oil and gas equipment leasing assets, but they also finance entertainment, research and development, and other projects. MLP common units, like other equity securities, can be affected by macroeconomic and other factors affecting the stock market in general, expectations of interest rates, investor sentiment towards an issuer or certain market sector, changes in a particular issuer’s financial condition, or unfavorable or unanticipated poor performance of a particular issuer (in the case of MLPs, generally measured in terms of distributable cash flow). Prices of common units of individual MLPs, like the prices of other equity securities, also can be affected by fundamentals unique to the partnership or company, including earnings power and coverage ratios.

Portfolio Turnover. The Fund’s portfolio turnover may vary from year to year, as well as within a year. The Fund’s portfolio may turn over due to changes in and rebalancings of its Target Index. A high portfolio turnover rate (for example, over 100%) may result in transaction costs to the Fund, including brokerage commissions and other transaction costs. The performance of the Fund could be negatively impacted by the increased costs. In addition, rapid portfolio turnover exposes shareholders to the possibility of a higher current realization of short-term capital gains in excess of short-term capital losses, distributions of which would generally be taxed to a shareholder as ordinary income and thus cause the shareholder to pay higher taxes. However, utilizing the creation and redemption in-kind mechanism, the Fund will seek to minimize capital gains to the extent possible.

“Portfolio Turnover Rate” is defined under the rules of the SEC as the lesser of the value of the securities purchased or securities sold, excluding all securities whose maturities at time of acquisition were one year or less, divided by the average monthly value of such securities owned during the year. Based on this definition, instruments with remaining maturities of less than one year are excluded from the calculation of Portfolio Turnover Rate. Instruments excluded from the calculation of portfolio turnover generally would include future contracts, swap agreements and option contracts in which the Fund invests since such contracts generally have a remaining maturity of less than one year. In addition, the calculation of portfolio turnover does not include portfolio securities involved in in-kind transactions for Creation Units.

Real Estate Investment Trusts. The Fund may obtain exposure to real estate investment trusts (“REITs”). A REIT is a company that pools investor funds to invest primarily in income producing real estate or real estate related loans or interests. REITs are not taxed on net income distributed to their shareholders if, among other things, they distribute substantially all of their taxable income (other than net capital gains) for each taxable year.

Because REITs have ongoing fees and expenses, which may include management, operating and administration expenses, REIT shareholders, including the Fund, will indirectly bear a proportionate share of those expenses.

The Fund also may be subject to certain risks associated with the direct investments of the REITs. REITs may be affected by changes in their underlying properties and by defaults by borrowers or tenants. Mortgage REITs may be affected by the quality of the credit extended. Furthermore, REITs are dependent on specialized management skills. Some REITs may have limited diversification and may be subject to risks inherent in financing a limited number of properties. REITs depend generally on their ability to generate cash flow to make distributions to shareholders or unitholders, and may be subject to defaults by borrowers and to self-liquidations. In addition, the performance of a REIT may be affected by its failure to qualify for tax-free pass-through of net investment income and net capital gain under the Code, including regulations thereunder and IRS interpretations or similar authority upon which the Fund may rely or its failure to maintain exemption from registration under the 1940 Act.

Rule 144A Securities. The Fund may invest in Rule 144A securities. Rule 144A securities are securities which, while privately placed, are eligible for purchase and resale pursuant to Rule 144A under the Securities Act. This rule permits certain qualified institutional buyers, such as the Fund, to trade in privately placed securities even though such securities are not registered under the Securities Act. As set forth under “Illiquid Securities,” the Fund may invest up to an aggregate amount of 15% of its net assets in illiquid securities which may include Rule 144A securities. The Fund’s Adviser, under supervision of the Board, will consider whether securities purchased under Rule 144A are illiquid and thus subject to the Fund’s restriction on illiquid securities. In making this determination, the Adviser will consider the trading markets for the specific security taking into account the unregistered nature of a Rule 144A security. In addition, the Adviser could consider the (i) frequency of trades and quotes; (ii) number of dealers and potential purchasers; (iii) dealer undertakings to make a market; and (iv) nature of the security and of market place trades (for example, the time needed to dispose of the security, the method of soliciting offers and the mechanics of transfer). The Fund’s Adviser will also monitor the liquidity of Rule 144A securities, and if, as a result of changed conditions, the Adviser determines that a Rule 144A security is no longer liquid, the Adviser will review the Fund’s holdings of illiquid securities to determine what, if any, action is required to assure that the Fund complies with its restriction on investment of illiquid securities. Investing in Rule 144A securities could increase the amount of the Fund’s investments in illiquid securities if qualified institutional buyers are unwilling to purchase such securities.

When-Issued Securities. The Fund may purchase when-issued securities. Purchasing securities on a “when-issued” basis means that the date for delivery of and payment for the securities is not fixed at the date of purchase, but is set after the securities are issued. The payment obligation and, if applicable, the interest rate that will be received on the securities are fixed at the time the buyer enters into the commitment. The Fund will only make commitments to purchase such securities with the intention of actually acquiring such securities, but the Fund may sell these securities before the settlement date if it is deemed advisable.

Securities purchased on a when-issued basis and the securities held in the Fund’s portfolio are subject to changes in market value based upon the public’s perception of the creditworthiness of the issuer and, if applicable, the changes in the level of interest rates. Therefore, if the Fund is to remain substantially fully invested at the same time that it has purchased securities on a when-issued basis, there will be a possibility that the market value of the Fund’s assets will fluctuate to a greater degree. Furthermore, when the time comes for the Fund to meet its obligations under when-issued commitments, the Fund will do so by using then available cash flow, by sale of other securities, or, although it would not normally expect to do so, by directing the sale of when-issued securities themselves (which may have a market value greater or less than the Fund’s payment obligation).

Investment in securities on a when-issued basis may increase the Fund’s exposure to market fluctuation and may increase the possibility that the Fund will incur short-term gains subject to federal taxation or short-term losses if the Fund must sell another security in order to honor a when-issued commitment. The Fund will employ techniques designed to reduce such risks.

INFORMATION ABOUT THE INDEX PROVIDERS AND DISCLAIMERS

Index Providers. Set forth below is the Underlying Index upon which the Fund is based.

Fund	Underlying Index
ALPS O’Shares International Developed Quality Dividend ETF	O’Shares International Developed Quality Dividend Index

O’Shares Investment Advisers, LLC (the “Index Provider”) is not affiliated with the Trust, the Adviser or the Distributor. The Adviser has entered into a license agreement with the Index Provider to use each Underlying Index. The Adviser pays licensing fees to the Index Provider from the Adviser’s own resources.

THE FUND IS NOT SPONSORED, MANAGED OR ADVISED BY THE INDEX PROVIDER. THE INDEX PROVIDER MAKES NO REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, TO THE SHAREHOLDERS OF A FUND OR ANY MEMBER OF THE PUBLIC REGARDING THE ADVISABILITY OF INVESTING IN SECURITIES GENERALLY OR IN A FUND PARTICULARLY OR THE ABILITY OF AN UNDERLYING INDEX TO TRACK PERFORMANCE OF A MARKET OR SECTOR. THE INDEX PROVIDER’S ONLY RELATIONSHIP TO ALPS IS IN RELATION TO THE LICENSING OF CERTAIN TRADEMARKS AND TRADE NAMES OF THE INDEX PROVIDER AND OF ONE OR MORE THE INDEX PROVIDER’S INDEXES, INCLUDING THE UNDERLYING INDEXES, EACH OF WHICH IS DETERMINED, COMPOSED AND CALCULATED BY THE INDEX PROVIDER WITHOUT REGARD TO ALPS OR THE FUND. THE INDEX PROVIDER HAS NO OBLIGATION TO TAKE THE NEEDS OF ALPS, THE FUND OR THE FUND’S SHAREHOLDERS INTO CONSIDERATION IN DETERMINING, COMPOSING OR CALCULATING AN UNDERLYING INDEX. THE INDEX PROVIDER IS NOT RESPONSIBLE FOR AND HAS NOT PARTICIPATED IN THE TIMING OF THE ISSUANCE OR SALE OF FUND SHARES OR IN THE DETERMINATION OR CALCULATION OF THE VALUATION OF A FUND’S ASSETS. THE INDEX PROVIDER HAS NO OBLIGATION OR LIABILITY IN CONNECTION WITH THE ADMINISTRATION, MARKETING OR PORTFOLIO MANAGEMENT OF THE FUND.

THE INDEX PROVIDER DOES NOT GUARANTEE THE ACCURACY AND/OR THE COMPLETENESS OF THE UNDERLYING INDEXES OR ANY DATA INCLUDED THEREIN AND THE INDEX PROVIDER SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. THE INDEX PROVIDER MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY ALPS, THE FUND, FUND SHAREHOLDERS, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE UNDERLYING INDEXES OR ANY DATA INCLUDED THEREIN. THE INDEX PROVIDER MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF USE WITH RESPECT TO THE UNDERLYING INDEXES OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL THE INDEX PROVIDER HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS) RESULTING FROM THE USE OF THE UNDERLYING INDEXES OR ANY DATA INCLUDED THEREIN, EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

THE FUND

The Adviser does not guarantee the accuracy and/or the completeness of the Underlying Index or any data included therein, and the Adviser shall have no liability for any errors, omissions or interruptions therein. Errors in respect of the quality, accuracy and completeness of the data used to compile the Underlying Index may occur from time to time and may not be identified and corrected by the Index Provider for a period of time or at all, particularly where the indices are less commonly used as benchmarks by funds or managers. Such errors may negatively or positively impact the Fund and its shareholders. For example, during a period where the Underlying Index contains incorrect constituents, the Fund would have market exposure to such constituents and would be underexposed to the Underlying Index's other constituents. The Adviser makes no warranty, express or implied, as to results to be obtained by the Fund, owners of the Shares of the Fund or any other person or entity from the use of the Underlying Index or any data included therein. The Adviser makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to each Underlying Index or any data included therein. Without limiting any of the foregoing, in no event shall the Adviser have any liability for any special, punitive, direct, indirect or consequential damages (including lost profits) arising out of matters relating to the use of the Underlying Index, even if notified of the possibility of such damages.

SPECIAL CONSIDERATIONS AND RISKS

A discussion of the risks associated with an investment in the Fund is contained in the Prospectus. The discussion below supplements, and should be read in conjunction with, the Prospectus.

GENERAL

Investment in the Fund should be made with an understanding that the value of the Fund's portfolio securities may fluctuate in accordance with changes in the financial condition of the issuers of the portfolio securities, the value of securities generally and other factors.

An investment in the Fund should also be made with an understanding of the risks inherent in an investment in securities, including the risk that the financial condition of issuers may become impaired or that the general condition of the securities markets may deteriorate (either of which may cause a decrease in the value of the portfolio securities and thus in the value of Shares). Securities are susceptible to general market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. These investor perceptions are based on various and unpredictable factors including expectations regarding government, economic, monetary and fiscal policies, inflation and interest rates, economic expansion or contraction, and global or regional political, economic and banking crises.

Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer, have generally inferior rights to receive payments from the issuer in comparison with the rights of creditors of, or holders of debt obligations or preferred stocks issued by, the issuer. Further, unlike debt securities which typically have a stated principal amount payable at maturity (whose value, however, will be subject to market fluctuations prior thereto), or preferred stocks which typically have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity. Common stock values are subject to market fluctuations as long as the common stock remains outstanding.

The principal trading market for some of the securities in an Underlying Index may be in the over-the-counter market. The existence of a liquid trading market for certain securities may depend on whether dealers will make a market in such securities. There can be no assurance that a market will be made or maintained or that any such market will be or remain liquid. The price at which securities may be sold and the value of the Fund's Shares will be adversely affected if trading markets for the Fund's portfolio securities are limited or absent or if bid/ask spreads are wide.

COMMON STOCK RISK

Common stock held by the Fund may fall in value due to general market and economic conditions (market risk) and in response to the fortunes of individual companies (company risk). Therefore, the value of an investment in the Fund holding common stock may decrease. The market as a whole can decline for many reasons, including adverse political, social or economic developments here or abroad, changes in investor psychology, or heavy institutional selling. Also, certain unanticipated events, such as natural disasters, infectious disease epidemics, terrorist attacks, war, country instability and other geopolitical events, can have a dramatic adverse effect on stock markets. Changes in the financial condition of a company or other issuer, changes in specific market, economic, political, and regulatory conditions that affect a particular type of investment or issuer, and changes in general market, economic, political, and regulatory conditions can adversely affect the price of equity securities. These developments and changes can affect a single issuer, issuers within a broad market sector, industry or geographic region, or the market in general.

NON-U.S. AND EMERGING MARKETS SECURITIES

The Fund's return and NAV may be significantly affected by political or economic conditions and regulatory requirements in a particular country. Non-U.S. markets, economies and political systems may be less stable than U.S. markets, and changes in exchange rates of foreign currencies can affect the value of the Fund's foreign assets. Non-U.S. laws and accounting standards typically are not as comprehensive as they are in the U.S. and there may be less public information available about foreign companies. Non-U.S. securities markets may be less liquid and have fewer transactions than U.S. securities markets. Additionally, international markets may experience delays and disruptions in securities settlement procedures for the Fund's portfolio securities. Investments in foreign countries could be affected by potential difficulties in enforcing contractual obligations and could be subject to extended settlement periods or restrictions affecting the prompt return of capital to the U.S. Foreign securities, securities denominated in or providing exposure to foreign currencies, and securities issued by U.S. entities with substantial foreign operations may involve significant risks in addition to the risks inherent in U.S. investments.

Non-U.S. equity securities can involve additional risks relating to political, economic or regulatory conditions in foreign countries. Less information may be available about foreign companies than about domestic companies, and foreign companies generally may not be subject to the same uniform accounting, auditing and financial reporting standards or to other regulatory practices and requirements comparable to those applicable to domestic companies. Non-U.S. companies listed on U.S. exchanges, including ADRs, may be delisted if they do not meet U.S. accounting standards and auditor oversight requirements, which could impact the value of the Fund's investments in such securities.

Investing in emerging market equity securities can pose some risks different from, and greater than, risks of investing in U.S. or developed markets equity securities. These risks include: a risk of loss due to political instability; exposure to economic structures that are generally less diverse and mature, and to political systems which may have less stability than those of more developed countries; smaller market capitalization of securities markets, which may suffer periods of relative illiquidity; significant price volatility; restrictions on foreign investment; and possible repatriation of investment income and capital. In addition, foreign investors may be required to register the proceeds of sales; future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization, or creation of government monopolies. The currencies of emerging market countries may experience significant declines against the U.S. dollar, and devaluation may occur subsequent to investments in these currencies by the Fund. Emerging market securities may be subject to currency transfer restrictions and may experience delays and disruptions in securities settlement procedures for the Fund's portfolio securities. Inflation and rapid fluctuations in inflation rates have had, and may continue to have, negative effects on the economies and securities markets of certain emerging market countries.

To the extent the Fund invests in a VIE to gain exposure to a Chinese operating company, the Fund may be subject to additional risks. VIE structures are often used by China-based operating companies to raise capital from non-Chinese investors due to Chinese governmental restrictions on non-Chinese ownership of certain Chinese companies. In a VIE structure, a China-based operating company typically establishes an offshore entity that enters into service and other contracts with the Chinese company. These contractual arrangements are designed to provide investors in the offshore entity with economic exposure to the China-based operating company, but do not provide investors in the offshore entity with an equity ownership interest in the China-based operating company. The ability of the offshore entity to control the activities of the China-based operating company are generally limited. The China-based operating company may undertake actions that negatively impact the value of an investment in the offshore entity. Changes in law or regulation, or other interventions by the Chinese government, could significantly harm the value of the Fund's investments in such entities.

Economic sanctions may be, and have been, imposed against certain countries, entities and/or individuals. Economic sanctions and other similar governmental actions could, among other things, restrict or eliminate the Fund's ability to purchase or sell certain foreign securities and significantly delay or prevent the settlement of securities transactions. Such actions could decrease the liquidity and value of securities held by the Fund, and may require the Fund to sell or otherwise dispose of impacted securities at inopportune times or prices. Sanctions could also result in countermeasures or retaliatory actions, which may adversely impact the Fund's investments, including those that are not economically tied to sanctioned countries, entities and/or individuals. Although it is not possible to predict the impact that any sanctions and retaliatory actions may have on the Fund, such events could significantly harm the value of the Fund's investments and the Fund's performance.

RISKS OF CURRENCY TRANSACTIONS

The Fund may, in certain circumstances, attempt to hedge against currency risk by entering into forward contracts. Hedging the Fund's currency risks involves the risk of mismatching the Fund's objectives under a forward or futures contract with the value of securities denominated in a particular currency. Furthermore, such transactions reduce or preclude the opportunity for gain if the value of the currency should move in the direction opposite to the position taken. There is an additional risk to the effect that currency contracts create exposure to currencies in which the Fund's securities are not denominated. Unanticipated changes in currency prices may result in poorer overall performance for the Fund than if it had not entered into such contracts. In addition, certain market conditions may make it impossible or uneconomical to hedge against currency risk.

The Fund invests in non-U.S. securities and thus may engage in foreign exchange transactions. Foreign exchange transactions involve a significant degree of risk and the markets in which foreign exchange transactions are effected are highly volatile, highly specialized and highly technical. Significant changes, including changes in liquidity and prices, can occur in such markets within very short periods of time, often within minutes. Foreign exchange trading risks include, but are not limited to, exchange rate risk, maturity gap, interest rate risk, and potential interference by foreign governments through regulation of local exchange markets, foreign investment or particular transactions in foreign currency. If the Fund utilizes foreign exchange transactions at an inappropriate time or judges market conditions, trends or correlations incorrectly, foreign exchange transactions may not serve their intended purpose of improving the correlation of the Fund's return with the performance of its Underlying Index, if any, and may lower the Fund's return. The Fund could experience losses if the value of its currency forwards, options and futures positions were poorly correlated with its other investments or if it could not close out its positions because of an illiquid market. In addition, the Fund could incur transaction costs, including trading commissions, in connection with certain foreign currency transactions.

TAX RISKS

As with any investment, you should consider how your investment in Shares of the Fund will be taxed. The tax information in the Prospectus and this Statement is provided as general information. You should consult your own tax professional about the tax consequences of an investment in Shares of the Fund.

CONTINUOUS OFFERING

The method by which Creation Units of Shares are created and traded may raise certain issues under applicable securities laws. Because new Creation Units of Shares are issued and sold by the Trust on an ongoing basis, at any point a "distribution," as such term is used in the Securities Act, may occur. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery and liability provisions of the Securities Act. For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Units after placing an order with the Distributor, breaks them down into constituent Shares, and sells such Shares directly to customers, or if it chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary market demand for Shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a categorization as an underwriter.

Broker-dealer firms should also note that dealers who are not "underwriters" but are effecting transactions in Shares, whether or not participating in the distribution of Shares, are generally required to deliver a prospectus. This is because the prospectus delivery exemption in Section 4(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. Firms that incur a prospectus-delivery obligation with respect to Shares of the Fund are reminded that under Securities Act Rule 153, a prospectus-delivery obligation under Section 5(b)(2) of the Securities Act owed to the Exchange member in connection with a sale on an Exchange is satisfied by the fact that the Fund's prospectus is available at the applicable listing Exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on an Exchange.

MARKET DISRUPTIONS RISK

The Fund is subject to investment and operational risks associated with financial, economic and other global market developments and disruptions, including those arising from war, terrorism, market manipulation, government interventions, defaults and shutdowns, political changes or diplomatic developments, public health emergencies (such as the spread of infectious diseases, pandemics and epidemics) and natural/environmental disasters, which can all negatively impact the securities markets and cause the Fund to lose value. These events can also impair the technology and other operational systems upon which the Fund's service providers, including the Fund's investment adviser and sub-adviser, as applicable, rely, and could otherwise disrupt the Fund's service providers' ability to fulfill their obligations to the Fund.

MANAGEMENT

Trustees and Officers

Overall responsibility for oversight of the Fund rests with the Trustees, and the Trust has engaged the Adviser to manage the Fund on a day-to day basis. The Trust currently has six Trustees. Five of the Trustees have no affiliation or business connection with the Adviser or any of its affiliated persons and do not own any stock or other securities issued by the Adviser. These are the "non-interested" or "independent" Trustees ("Independent Trustees"). One of the Trustees is considered an "interested person" ("Interested Trustee") by virtue of his position as an officer of the Trust and of ALPS Advisors, Inc.

The Trustees of the Trust, their term of office and length of time served, their principal business occupations during the past five years, the number of portfolios in the Fund Complex overseen by each Trustee, and other directorships, if any, held by the Trustee are shown below.

Independent Trustees

Name, Address & Year of Birth*	Position(s) Held with Trust	Term of Office and Length of Time Served**	Principal Occupation(s) During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustees***	Other Directorships Held by Trustees
Edmund J. Burke, 1961	Trustee	Since December 2017	Mr. Burke is currently a partner at ETF Action, a web-based system that provides data and analytics to registered investment advisers, (since 2020) and a Director of Alliance Bioenergy Plus, Inc., a technology company focused on emerging technologies in the renewable energy, biofuels, and bioplastics technology sectors (since 2020). Prior to his retirement on June 3, 2019, Mr. Burke served as the President and Director of ALPS Holdings, Inc., and ALPS Advisors, Inc., and as a Director of ALPS Distributors, Inc., ALPS Fund Services, Inc. ("ALPS"), and ALPS Portfolio Solutions Distributor, Inc.	35	Mr. Burke is a Trustee of Clough Global Dividend and Income Fund (1 fund); Clough Global Equity Fund (1 fund); Clough Global Opportunities Fund (1 fund); Liberty All-Star Equity Fund (1 fund); Director of the Liberty All-Star Growth Fund, Inc. (1 fund) and Financial Investors Trust (14 funds).

Jeremy W. Deems, 1976	Trustee	Since March 2008	Mr. Deems is the Co-Founder and Chief Financial Officer of Green Alpha Advisors, LLC, a registered investment advisor, and Co-Portfolio Manager of the AXS Green Alpha ETF.	40	Mr. Deems is a Trustee of ALPS Variable Investment Trust (7 funds); Financial Investors Trust (14 funds); Reaves Utility Income Fund (1 fund).
Joseph F. Keenan, 1962	Trustee	Since July 2024	Mr. Keenan is the sole proprietor of Target Consulting LLC, a consulting firm he founded in 2019. Mr. Keenan's consulting projects have included an engagement with DST Systems, Inc., an affiliate of SS&C Technologies, where he served as a Senior Vice President from May 2019 to March 2020.	24	Mr. Keenan is a Trustee of WisdomTree Digital Trust (13 funds).

Rick A. Pederson, 1952	Trustee, Chairman of the Board	Since March 2008	Mr. Pederson is Partner, Bow River Capital Partners (private equity management), 2003 - present; Board Member, Strong-Bridge Consulting, 2015-2019; Board Member, IRI/ODMS Holdings LLC, 2017 – 2019; Director, National Western Stock Show (not for profit) 2010 - present; Director, History Colorado (not for profit) 2015 - present; Director, Citywide Bank Advisory Board 2017 - present; Trustee, Boettcher Foundation, 2018 - present.	25	Mr. Pederson is Trustee of Segall Bryant & Hamill Trust (14 funds) and Principal Real Estate Income Fund (1 fund).
Susan K. Wold, 1960	Trustee	Since July 2024	Ms. Wold was the Global Ombudsman, Head of North American Compliance and interim Head of Risk for Janus Henderson Investors from 2017-2020 and the Chief Compliance Officer and Anti Money Laundering Officer for various Janus investment funds.	24	Ms. Wold is a Trustee of Versus Capital Infrastructure Income Fund (1 fund); Versus Capital Real Assets Fund (1 fund); and Versus Capital Multi-Manager Real Estate Income Fund (1 fund).

* The business address of the Trustee is c/o ALPS Advisors, Inc., 1290 Broadway, Suite 1000, Denver, Colorado 80203.

** This is the period for which the Trustee began serving the Trust. Each Trustee serves an indefinite term, until his or her successor is elected.

*** The Fund Complex includes all series of the Trust and any other investment companies for which ALPS Advisors, Inc. provides investment advisory services.

Interested Trustee

Name, Address & Year of Birth*	Position(s) Held with Trust	Term of Office and Length of Time Served**	Principal Occupation(s) During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustees***	Other Directorships Held by Trustees
Laton Spahr, 1975****	President and Trustee	President since June 2021 Trustee since July 2024	Mr. Spahr joined ALPS in 2019 and currently serves as President and Portfolio Manager of AAI. Prior to his current role, Mr. Spahr was a Senior Vice President and Strategy Leader of the Value & Income Team for Oppenheimer Funds from 2013 to 2019.	24	N/A

Officers

Name, Address and Year of Birth of Officer*	Position(s) Held with Trust	Length of Time Served**	Principal Occupation(s) During Past 5 Years
Matthew Sutula, 1985	Chief Compliance Officer (“CCO”)	Since December 2019	Mr. Sutula joined ALPS in 2012 and currently serves as Chief Compliance Officer of AAI. Prior to his current role, Mr. Sutula served as interim Compliance Officer of the Trust (September 2019 to December 2019). Compliance Manager and Senior Compliance Analyst for AAI, as well as Compliance Analyst for AFS. * The business address of each Officer is c/o ALPS Advisors, Inc., 1290 Broadway, Suite 1000, Denver, Colorado 80203. Each Officer is deemed an affiliate of the Trust as defined under the 1940 Act.

** This is the period for which the Officer began serving the Trust. Each Officer serves an indefinite term, until his or her successor is elected.

Additional Information About the Trustees' Qualifications and Experience

The following is a brief discussion of the specific education, experience, qualifications, or skills that led to the conclusion, as of the date of this SAI, that each person identified below should serve as a Trustee for the Trust.

Edmund J. Burke

Mr. Burke has been a Trustee of the Trust since December 11, 2017 and an Independent Trustee of the Trust since 2021. Mr. Burke joined ALPS Fund Services, Inc., the Fund's administrator, in 1991 and retired in 2019. He previously served as Director of ALPS Holdings, Inc., ALPS Fund Services, Inc., ALPS Advisors, Inc., the Fund's investment adviser, ALPS Distributors, Inc., and ALPS Portfolio Solutions Distributor, Inc., the Fund's principal underwriter. Mr. Burke has over 20 years of financial services and investment management experience. Before joining ALPS, Mr. Burke was a Regional Vice President for the Pioneer Funds in Boston and has also worked with Fidelity. Mr. Burke has a B.A. in Economics from the University of New Hampshire. He was selected to serve as a Trustee of the Trust based on his business, financial services and investment management experience.

Jeremy W. Deems

Mr. Deems has been an Independent Trustee of the Trust since March 25, 2008. In 2007, Mr. Deems co-founded Green Alpha Advisors, LLC, a registered investment adviser, for which he currently serves as Co-Founder, Chief Compliance Officer and Chief Financial Officer. Prior to co-founding Green Alpha Advisors, Mr. Deems was CFO and Treasurer of Forward Management, LLC, investment advisor to the Forward Funds, ReFlow Management Co., LLC, ReFlow Fund, LLC, a private investment fund, and Sutton Place Management, LLC, an administrative services company, from 1998 to June 2007. Mr. Deems received a B.S. and a MBA in finance from Saint Mary's College of California and was a licensed Certified Public Accountant and a member of the American Institute of Certified Public Accountants from 2001 to 2016. He was selected to serve as a Trustee of the Trust based on his business, financial services, accounting and investment management experience.

Joseph F. Keenan

Mr. Keenan is the sole proprietor of Target Consulting LLC, a consulting firm he founded in 2019. Mr. Keenan's consulting projects have included an engagement with DST Systems, Inc., an affiliate of SS&C Technologies, where he served as a Senior Vice President from May 2019 to March 2020. Mr. Keenan has over 30 years of experience in the financial services industry, including roles in sales, fund services and operations at Bank of New York Mellon, a global custodial bank, fund administrator and accounting agent. Mr. Keenan also has experience serving on boards of other public and private organizations, including registered investment funds. Mr. Keenan has an MBA in finance from the NYU Stern School of Business and a B.A. in English Language and Communications from the University of Michigan. He was selected to serve as a Trustee of the Trust based on his business, financial services, fund services and operations industry experience.

Rick A. Pederson

Mr. Pederson has served as an Independent Trustee of the Trust since March 26, 2008. Mr. Pederson has been a long-time manager of private equity and real estate investment funds, and has served on the boards of several private companies and not-for-profit entities. He was selected to serve as a Trustee of the Trust based on his business and financial services experience.

Susan K. Wold

Ms. Wold has over 30 years of experience in financial services with expertise in global securities regulation, corporate governance and ethics, third party oversight, and public and private investment funds. Most recently, Ms. Wold was the Global Ombudsman, Head of North American Compliance and interim Head of Risk for Janus Henderson Investors from 2017-2020 and the Chief Compliance Officer and Anti Money Laundering Officer for various Janus investment funds. Prior to that, Ms. Wold served in various senior compliance roles at Janus Capital Group and Janus Capital Management LLC from 2005-2017. Prior to Janus Capital Group, Ms. Wold held a variety of legal and compliance positions in the asset management industry and as a lawyer in private practice. Ms. Wold also has experience serving on boards of other public and private organizations, including registered investment funds. Ms. Wold holds a JD from the University of Minnesota Sturm College of Law, a Business Administration degree from Colorado College and a Diversity, Equity, and Inclusion in the Workplace certificate from the University of South Florida MUMA College of Business. Ms. Wold was selected to serve as a Trustee of the Trust based on her financial services and fund operations, risk management and compliance experience.

Laton Spahr

Mr. Spahr has been the President of the Trust since June 2021 and is a Portfolio Manager of ALPS Active Equity Opportunity ETF, a series of the Trust. Mr. Spahr joined SS&C ALPS Advisors in 2019 and serves as its President. Mr. Spahr has over 20 years of financial services and investment management experience. Prior to his association with SS&C ALPS, Mr. Spahr was a Senior Vice President and Strategy Leader of the Value & Income Team for OppenheimerFunds from 2013 to 2019. Prior to OppenheimerFunds, Mr. Spahr was a leader at Columbia Management Investment Advisors, where he managed value and income strategies across institutional and retail investment channels. Mr. Spahr has an M.S. Finance degree from the Applied Securities Analysis Program at the University of Wisconsin - Madison and a B.S. degree in Finance from the University of Wyoming. He was selected to serve as a Trustee of the Trust based on his business, financial services and investment management experience.

Leadership Structure and Oversight Responsibilities

Overall responsibility for oversight of the Fund rests with the Trustees. The Trust has engaged the Adviser to manage the Fund on a day-to-day basis. The Board is responsible for overseeing the Adviser and other service providers in the operations of the Fund in accordance with the provisions of the 1940 Act, applicable provisions of state and other laws and the Trust's charter. The Board is currently composed of six members, five of whom are Independent Trustees. The Board meets at regularly scheduled quarterly meetings each year. In addition, the Board may hold special in-person, telephonic or videoconference meetings or informal conference calls to discuss specific matters that may arise or require action between regular meetings. As described below, the Board has established a Nominating and Governance Committee and an Audit Committee, and may establish ad hoc committees or working groups from time to time, to assist the Board in fulfilling its oversight responsibilities.

The Board has appointed Mr. Pederson, an Independent Trustee, to serve in the role of Chairman. The Chairman's role is to preside at all meetings of the Board and to act as a liaison with the Adviser, other service providers, counsel and other Trustees generally between meetings. The Chairman may also perform such other functions as may be delegated by the Board from time to time. The Board reviews matters related to its leadership structure annually. The Board has determined that the Board's leadership structure is appropriate given the Trust's characteristics and circumstances. These characteristics include, but are not limited to, the fact that the Chairman of the Board is an Independent Trustee, the Trust's multiple series of funds, the Trust's net assets, the services provided by the Trust's service providers, and the formal and informal functions of the various Independent Trustees both during and between Board meetings.

Risk oversight forms part of the Board's general oversight of the Fund and is addressed as part of various Board and Committee activities. As part of its regular oversight of the Fund, the Board, directly or through either Committee, interacts with and reviews reports from, among others, Fund management, the Adviser, the Fund's Chief Compliance Officer, the Fund's legal counsel and the independent registered public accounting firm for the Fund regarding risks faced by the Fund. The Board, with the assistance of Fund management and the Adviser, reviews investment policies and risks in connection with its review of the Fund's performance. The Board has appointed a Chief Compliance Officer who oversees the implementation and testing of the Fund's compliance program and reports to the Board regarding compliance matters for the Fund and its principal service providers. In addition, as part of the Board's periodic review of the Fund's advisory and other service provider agreements, the Board may consider risk management aspects of these service providers' operations and the functions for which they are responsible. None of the Independent Trustees own securities in the Adviser or the Distributor, nor do they own securities in any entity directly controlling, controlled by, or under common control with the Adviser or the Distributor.

The Board met six times during the fiscal year ended November 30, 2024.

Audit Committee. The Board has an Audit Committee which considers such matters pertaining to the Trust's books of account, financial records, internal accounting controls and changes in accounting principles or practices as the Trustees may from time to time determine. The Audit Committee also considers the engagement and compensation of the independent registered public accounting firm ("Firm") and ensures receipt from the Firm of a formal written statement delineating relationships between the Firm and the Trust, consistent with Public Company Accounting Oversight Board Rule 3526. The Audit Committee also meets privately with the representatives of the Firm to review the scope and results of audits and other duties as set forth in the Audit Committee's Charter. The Audit Committee members, each of whom are Independent Trustees are: Ms. Wold and Messrs. Burke, Deems (Chairman), Keenan, and Pederson. The Audit Committee met four times during the fiscal year ended November 30, 2024.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee meets periodically to advise and assist the Board in selecting nominees to serve as trustees of the Trust. The Nominating and Corporate Governance Committee believes the Board generally benefits from diversity of background, experience and views among its members, and considers this a factor in evaluating the composition of the Board. The Nominating and Corporate Governance Committee also advises and assists the Board in establishing, implementing and executing policies, procedures and practices that assure orderly and effective governance of the Trust and effective and efficient management of all business and financial affairs of the Trust. Members of the Nominating and Corporate Governance Committee, each of whom are Independent Trustees, are Ms. Wold, and Messrs. Burke (Chairman), Deems, Keenan, and Pederson. The Nominating and Corporate Governance Committee of the Board met two times during the fiscal year ended November 30, 2024.

Shareholder Nominations. The Board will consider shareholder nominees for Trustees. All nominees must possess the appropriate characteristics, skills and experience for serving on the Board. In particular, the Board and its Independent Trustees will consider each nominee's integrity, educational, professional background, understanding of the Trust's business on a technical level and commitment to devote the time and attention necessary to fulfill a Trustee's duties. All shareholders who wish to recommend nominees for consideration as Trustees shall submit the names and qualifications of the candidates to the Secretary of the Trust by writing to: ALPS ETF Trust, 1290 Broadway, Suite 1000, Denver, Colorado 80203.

As of December 31, 2024, the dollar range of equity securities in the Fund beneficially owned by the Interested Trustee were as follows:

Interested Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Trustee in Family of Investment Companies
Laton Spahr	None	Over \$1 million

As of December 31, 2024, the dollar range of equity securities in the Fund beneficially owned by Independent Trustees were as follows:

Independent Trustees	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in All Registered Investment Companies Overseen by Trustee in Family of Investment Companies
Edmund J. Burke	None	\$50,001-100,000
Jeremy W. Deems	None	None
Joseph F. Keenan	None	None
Rick A. Pederson	None	None
Susan K. Wold	None	None

Remuneration of Trustees and Officers

For the fiscal year ended November 30, 2024, each Trustee received (1) a quarterly retainer of \$25,000, (2) a per meeting fee of \$15,000, (3) \$2,500 for any special meeting held outside of a regularly scheduled board meeting, and (4) reimbursement for all reasonable out-of-pocket expenses relating to attendance at meetings. In addition, the Chairman of the Board received a quarterly retainer of \$5,000, the Chairman of the Audit Committee received a quarterly retainer of \$3,000, and the Chairman of the Nominating & Governance Committee received a quarterly retainer of \$2,000.

Effective April 1, 2025, each Independent Trustee will receive (1) a quarterly retainer of \$27,500, (2) a per meeting fee of \$16,500, (3) \$4,000 for any special meeting held outside of a regularly scheduled board meeting, and (4) reimbursement for all reasonable out-of-pocket expenses relating to attendance at meetings. In addition, the Chairman of the Board will receive a quarterly retainer of \$7,000, the Chairman of the Audit Committee will receive a quarterly retainer of \$4,000, and the Chairman of the Nominating & Governance Committee will receive a quarterly retainer of \$2,500.

The following chart provides certain information about the Trustee fees paid by the Trust for the fiscal year ended November 30, 2024:

	Aggregate Compensation From the Trust	Pension Or Retirement Benefits Accrued As Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Aggregate Compensation From The Trust And Fund Complex Paid To Trustees⁽¹⁾
<i>Independent Trustees</i>				
Mary K. Anstine, Trustee ⁽²⁾	\$162,500	\$0	\$0	\$414,750
Edmund J. Burke, Trustee	\$166,500	\$0	\$0	\$441,000
Jeremy W. Deems, Trustee	\$174,500	\$0	\$0	\$457,750
Joseph F. Keenan, Trustee	\$40,000	\$0	\$0	\$40,000
Rick A. Pederson, Trustee	\$186,500	\$0	\$0	\$233,500
Susan K. Wold, Trustee	\$40,000	\$0	\$0	\$40,000
<i>Interested Trustees</i>				
Laton Spahr	\$0	\$0	\$0	\$0

(1) The Fund Complex includes all series of the Trust and any other investment companies for which ALPS Advisors, Inc. provides investment advisory services.

(2) Effective December 31, 2024, Ms. Anstine retired as Trustee of the Trust.

Officers who are employed by the Adviser receive no compensation or expense reimbursements from the Trust.

Adviser. The Fund is managed by the Adviser. The Adviser, a wholly owned subsidiary of ALPS Holdings, Inc. (“ALPS Holdings”), subject to the authority of the Board, is responsible for the overall management and administration of the Fund’s business affairs. The Adviser commenced business operations in December 2006 upon the acquisition of an existing investment advisory operation and is registered with the SEC as an investment adviser. The Adviser’s principal address is 1290 Broadway, Suite 1000, Denver, CO 80203. The Adviser is an affiliate of ALPS Fund Services, Inc., who serves as the Fund’s administrator, and ALPS Portfolio Solutions Distributor, Inc., who serves as Distributor to the Fund.

Located in Denver, Colorado, ALPS Holdings was founded in 1985 as a provider of fund administration and fund distribution services. Since then, ALPS Holdings has added additional services, including fund accounting, transfer agency, shareholder services, active distribution, legal, tax and compliance services. As of December 31, 2024, ALPS Advisors, Inc. managed over \$26.84 billion in assets. ALPS Holdings is an indirect wholly-owned subsidiary of SS&C Technologies Holdings, Inc. (“SS&C”), a publicly traded company listed on the NASDAQ Global Select Market, which acquired ALPS Holdings’ parent company DST Systems, Inc. in a transaction which closed on April 16, 2018.

Investment Advisory Agreement.

Pursuant to an Investment Advisory Agreement between the Adviser and the Trust, the Adviser is responsible for all expenses of the Fund, including the cost of transfer agency, custody, fund administration, legal, audit, trustees and other services, except interest expenses, distribution fees or expenses, brokerage expenses, taxes and extraordinary expenses such as litigation and other expenses not incurred in the ordinary course of the Fund’s business.

Under the terms of the Investment Advisory Agreement, subject to Board oversight, the Adviser acts as investment adviser and, subject to Board oversight, directs the investments of the Fund in accordance with its investment objective, policies and limitations, either directly or through its supervision of a sub-adviser. The Adviser also assists in supervising the Trust's operations and provides all necessary office facilities and personnel for servicing the Fund's investments.

In addition, the Adviser, subject to Board oversight, provides the management services necessary for the operation of the Trust. These services include providing facilities for maintaining the Trust's organization; supervising relations with custodians, transfer and pricing agents, administrators, accountants, underwriters and other persons dealing with the Trusts; and furnishing reports, evaluations and analyses on a variety of subjects to the Board.

The Fund's unitary advisory fees as a percentage of net assets are:

Fund	Advisory Fee
ALPS O'Shares International Developed Quality Dividend ETF	0.48%

The table below shows the management fees earned by ALPS Advisors, Inc. for the periods indicated.

Fund	For the Fiscal Year Ended November 30, 2024	For the Fiscal Year Ended November 30, 2023	For the Fiscal Year Ended November 30, 2022
ALPS O'Shares International Developed Quality Dividend ETF ⁽¹⁾	\$186,379	\$185,257	\$73,655

(1) The O'Shares Europe Quality Dividend ETF (the "Predecessor Fund") was reorganized into the ALPS | O'Shares Europe Quality Dividend ETF on June 17, 2022. The ALPS | O'Shares Europe Quality Dividend ETF subsequently changed its fiscal year from June 30 to November 30. The 2022 management fees presented are for the fiscal period July 1, 2022 to November 30, 2022.

Under the Investment Advisory Agreement, the Adviser will not be liable for any error of judgment or mistake of law or for any loss suffered by the Fund in connection with the performance of the Investment Advisory Agreement, except a loss resulting from willful misfeasance, bad faith, or gross negligence on the part of the Adviser in the performance of its duties or from reckless disregard of its duties and obligations thereunder. The initial term of the Investment Advisory Agreement is two years and continues thereafter only if approved annually by the Board, including a majority of the Independent Trustees. The Investment Advisory Agreement terminates automatically upon assignment and is terminable at any time without penalty as to the Fund by the Board, including a majority of the Independent Trustees, or by vote of the holders of a majority of that Fund's outstanding voting securities on 60 days written notice to the Adviser, or by the Adviser on 60 days written notice to the Fund.

Other Accounts Managed by the Portfolio Managers; Compensation of the Portfolio Managers.

Information regarding the other accounts managed by the portfolio managers as of December 31, 2024, is set forth below:

Accounts Managed			Accounts With Respect to Which the Advisory Fee is based on the Performance of the Account		
Name of Portfolio Manager	Category of Account	Number of Accounts in Category	Total Assets in Accounts in Category	Number of Accounts in Category	Total Assets in Accounts in Category
Ryan Mischker	Registered Investment Companies	25	\$16.2 billion	N/A	N/A
	Other Pooled investment vehicles	N/A	N/A	N/A	N/A
	Other Accounts	N/A	N/A	N/A	N/A
Charles Perkins	Registered Investment Companies	25	\$16.2 billion	N/A	N/A
	Other Pooled investment vehicles	N/A	N/A	N/A	N/A
	Other Accounts	N/A	N/A	N/A	N/A

Conflicts of Interests. The portfolio manager’s management of “other accounts” may give rise to potential conflicts of interest in connection with management of the Fund’s investments, on the one hand, and the investments of the other accounts, on the other. The other accounts consist of separately managed private clients (“Other Accounts”) and comingled funds. The Other Accounts might have similar investment objectives as the Fund, be compared to the same performance benchmark as the Fund, or otherwise hold, purchase, or sell securities that are eligible to be held, purchased, or sold by the Fund. Furthermore, the portfolio manager may recommend that the Fund purchase a particular security while simultaneously recommending that an Other Account sell that security, or vice versa.

Knowledge of the Timing and Size of Fund Trades: A potential conflict of interest may arise as a result of the portfolio manager’s day-to-day management of the Fund. The portfolio manager knows the size and timing of trades for the Fund and the Other Accounts, and may be able to predict the market impact of Fund trades. It is theoretically possible that the portfolio manager could use this information to the advantage of Other Accounts it manages and to the possible detriment of the Fund, or vice versa. Furthermore, when the portfolio manager sells a security on behalf of an Other Account that the Fund also owns, the price of that security held by the Fund may decline.

Investment Opportunities: The Adviser provides investment supervisory services for a number of investment products that have varying investment guidelines. The portfolio manager works across different investment products. Differences in the compensation structures of the Adviser’s investment products may give rise to a conflict of interest by creating an incentive for the Adviser to allocate the investment opportunities it believes might be the most profitable to the client accounts where it might benefit the most from the investment gains.

Portfolio Manager Compensation Structure Disclosure: The Portfolio Managers who are responsible for the day-to-day management of the Fund are paid a base salary, plus a discretionary bonus. The bonus is determined by the business unit’s revenue and profitability as well as the individual’s contribution to the business unit. The bonus is discretionary and is not based specifically on portfolio performance.

Securities Ownership of the Portfolio Managers. The dollar range of Fund shares beneficially owned by each portfolio manager as of November 30, 2024 is as follows:

Fund	Dollar Range of Fund Shares Beneficially Owned
Ryan Mischker	
ALPS O'Shares International Developed Quality Dividend ETF	None
Charles Perkins	
ALPS O'Shares International Developed Quality Dividend ETF	None

ALPS Advisors, Inc.

The Adviser is responsible for the day-to-day management of the Fund, as described below. Mr. Mischker and Mr. Perkins, who are responsible for the day-to-day management of the Fund, are paid a base salary, plus a discretionary bonus. The bonus for Mr. Mischker and Mr. Perkins is determined by the business unit's revenue and profitability as well as the individual's contribution to the business unit. The bonus for Mr. Mischker and Mr. Perkins is discretionary and is not based specifically on portfolio performance.

Administrator. ALPS Fund Services, Inc. ("ALPS Fund Services") serves as the Trust's administrator. Pursuant to an administration agreement, ALPS Fund Services provides certain administrative, bookkeeping and accounting services to the Trust. For the services, ALPS Fund Services receives a fee, accrued daily and paid monthly by the Adviser from the management fee. ALPS Fund Services is located at 1290 Broadway, Suite 1000, Denver, Colorado 80203.

Custodian and Transfer Agent. State Street Bank and Trust Company ("SSB") serves as custodian for the Fund pursuant to a Custodian Agreement. As custodian, SSB holds the Fund's assets. SSB also serves as transfer agent for the Fund pursuant to a Transfer Agency and Service Agreement. As compensation for the foregoing services, SSB receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by the Adviser from the management fee.

Distributor. ALPS Portfolio Solutions Distributor, Inc. is the distributor of the Fund's Shares. Its principal address is 1290 Broadway, Suite 1000, Denver, Colorado 80203. The Distributor has entered into a Distribution Agreement with the Trust pursuant to which it distributes Fund Shares. Shares are continuously offered for sale by the Fund through the Distributor only in Creation Unit Aggregations, as described in the Prospectus and below under the heading "Creation and Redemption of Creation Units."

Financial Intermediary Compensation. The Adviser and/or its subsidiaries or affiliates ("Management Entities") may pay certain broker-dealers and other financial intermediaries ("Intermediaries") for certain activities related to the Fund ("Payments"). Any Payments made by Management Entities will be made from their own assets and not from the assets of the Fund. Although a portion of Management Entities' revenue may come directly or indirectly in part from fees paid by the Fund, Payments do not increase the price paid by investors for the purchase of shares of, or the cost of owning, the Fund. Management Entities may make Payments for Intermediaries to participate in activities that are designed to make registered representatives, other professionals and individual investors more knowledgeable about the Fund or for other activities, such as participation in marketing activities and presentations, educational training programs, the support of technology platforms and/or reporting systems. Management Entities may also make Payments to Intermediaries for certain printing, publishing and mailing costs associated with the Fund or materials relating to exchange-traded funds in general. In addition, Management Entities may make Payments to Intermediaries that make Shares available to their clients or for otherwise promoting the Fund. Payments of this type are sometimes referred to as revenue-sharing payments.

Payments to an Intermediary may be significant to the Intermediary, and amounts that Intermediaries pay to your salesperson or other investment professional may also be significant for your salesperson or other investment professional. Because an Intermediary may make decisions about which investment options it will recommend or make available to its clients or what services to provide for various products based on payments it receives or is eligible to receive, Payments create conflicts of interest between the Intermediary and its clients and these financial incentives may cause the Intermediary to recommend the Fund over other investments. The same conflict of interest exists with respect to your salesperson or other investment professional if he or she receives similar payments from his or her Intermediary firm.

Management Entities may determine to make Payments based on any number of metrics. For example, Management Entities may make Payments at year-end or other intervals in a fixed amount, an amount based upon an Intermediary's services at defined levels or an amount based on the Intermediary's net sales of the Fund in a year or other period, any of which arrangements may include an agreed-upon minimum or maximum payment, or any combination of the foregoing. The Adviser anticipates that the Payments paid by Management Entities in connection with the Fund will be immaterial to Management Entities in the aggregate for the current fiscal year. Please contact your salesperson or other investment professional for more information regarding any Payments his or her Intermediary firm may receive. Any payments made by the Management Entities to an Intermediary may create the incentive for an Intermediary to encourage customers to buy shares of the Fund.

Aggregations. Fund Shares in less than Creation Unit Aggregations are not distributed by the Distributor. The Distributor will deliver the Prospectus and, upon request, this SAI to persons purchasing Creation Unit Aggregations and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the Exchange Act and a member of the Financial Industry Regulatory Authority ("FINRA").

The Distribution Agreement for the Fund provides that it may be terminated as to the Fund at any time, without the payment of any penalty, on at least 60 days written notice by the Trust to the Distributor (i) by vote of a majority of the Independent Trustees or (ii) by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund. The Distribution Agreement will terminate automatically in the event of its assignment (as defined in the 1940 Act).

The Distributor may also enter into agreements with securities dealers ("Soliciting Dealers") who will solicit purchases of Creation Unit Aggregations of Fund Shares. Such Soliciting Dealers may also be Participating Parties (as defined in "Procedures for Creation of Creation Unit Aggregations" below) and DTC Participants of the Depository Trust Company (the "DTC") (as defined in "DTC Acts as Securities Depository" below).

Securities Lending

Pursuant to a securities lending agreement (the "Securities Lending Agreement") between the Fund and State Street Bank and Trust Company (in such capacity, the "Securities Lending Agent"), the Fund may lend their securities through the Securities Lending Agent to certain qualified borrowers. The Securities Lending Agent administers the Fund's securities lending program. These services include arranging the securities loans with approved borrowers and collecting fees and rebates due to the Fund from each borrower. The Securities Lending Agent also collects and maintains collateral intended to secure the obligations of each borrower and marks to market daily the value of loaned securities. If a borrower defaults on a loan, the Securities Lending Agent is authorized to exercise contractual remedies and, pursuant to the terms of the Securities Lending Agreement, has agreed to indemnify the Fund for losses due to a borrower's failure to return a lent security, which exclude losses associated with collateral reinvestment. The Securities Lending Agent may also invest cash received as collateral in pre-approved investments in accordance with the Securities Lending Agreement. The Securities Lending Agent maintains records of loans made and income derived therefrom and makes available such records that the Fund deems necessary to monitor the securities lending program.

For the fiscal year ended November 30, 2024, the Fund earned income and incurred the following costs and expenses as a result of their securities lending activities:

Fund	Gross Revenue ¹	Revenue Split ²	Cash Collateral Management Fees ³	Administrative Fees ⁴	Indemnification Fees ⁵	Rebates to Borrowers	Other Fees	Total Costs of the Securities Lending Activities	Net Income from the Securities Lending Activities
ALPS O'Shares International Developed Quality Dividend ETF	\$31,206	\$169	\$196	-	-	\$30,167	-	\$30,532	\$675

- 1 Gross income includes income from the reinvestment of cash collateral and rebates paid by the borrower.
- 2 Revenue split represents the share of revenue generated by the securities lending program and paid to the Securities Lending Agent.
- 3 Cash collateral management fees include fees deducted from a pooled cash collateral reinvestment vehicle that are not included in the revenue split.
- 4 These administrative fees are not included in the revenue split.
- 5 These indemnification fees are not included in the revenue split.

BROKERAGE TRANSACTIONS

The policy of the Trust regarding purchases and sales of securities is that primary consideration will be given to obtaining the most favorable prices and efficient executions of transactions. Consistent with this policy, when securities transactions are effected on a stock exchange, the Trust's policy is to pay commissions that are considered fair and reasonable without necessarily determining that the lowest possible commissions are paid in all circumstances. In seeking to determine the reasonableness of brokerage commissions paid in any transaction, the Adviser relies upon its experience and knowledge regarding commissions generally charged by various brokers. The sale of Fund Shares by a broker-dealer is not a factor in the selection of broker-dealers.

In seeking to implement the Trust's policies, the Adviser effects transactions with those brokers and dealers that the Adviser believes provide the most favorable prices and are capable of providing efficient executions. None of the Adviser, or its affiliates currently participate in soft dollar transactions.

The Adviser assumes general supervision over placing orders on behalf of the Fund for the purchase or sale of portfolio securities. If purchases or sales of portfolio securities by the Fund and one or more other investment companies or clients supervised by the Adviser are considered at or about the same time, transactions in such securities may be allocated among the Fund, the several investment companies and clients in a manner deemed equitable to all by the Adviser. In some cases, this procedure could have a detrimental effect on the price or volume of the security as far as the Fund is concerned. However, in other cases, it is possible that the ability to participate in volume transactions and to negotiate lower brokerage commissions will be beneficial to the Fund. The primary consideration is prompt execution of orders at the most favorable net price.

The table below shows the brokerage commissions paid by the Fund for the periods indicated:

Fund	For the Fiscal Year Ended November 30, 2024	For the Fiscal Year Ended November 30, 2023	For the Fiscal Year Ended November 30, 2022
ALPS O'Shares International Developed Quality Dividend ETF ⁽¹⁾	\$8,672	\$11,541	\$10,767

(1) The O'Shares Europe Quality Dividend ETF (the "Predecessor Fund") was reorganized into the ALPS | O'Shares Europe Quality Dividend ETF on June 17, 2022. Information shown above for the fiscal year ending November 30, 2022 is for the period July 1, 2022 to November 30, 2022. The ALPS | O'Shares Europe Quality Dividend ETF subsequently changed its fiscal year end to November 30. For the fiscal year ending June 30, 2022, the Predecessor Fund paid brokerage commissions of \$7,759.

ADDITIONAL INFORMATION CONCERNING THE TRUST

The Trust is an open-end management investment company registered under the 1940 Act. The Trust was organized as a Delaware statutory trust on September 13, 2007 and consists of multiple separate portfolios or series.

The Trust is authorized to issue an unlimited number of shares in one or more series or "funds." The Board of Trustees of the Trust has the right to establish additional series in the future, to determine the preferences, voting powers, rights and privileges thereof and to modify such preferences, voting powers, rights and privileges without shareholder approval.

Each Share issued by the Fund has a pro rata interest in the assets of the Fund. Fund Shares have no preemptive, exchange, subscription or conversion rights and are freely transferable. Each Share is entitled to participate equally in dividends and distributions declared by the Board with respect to the Fund, and in the net distributable assets of the Fund on liquidation.

Each Share has one vote with respect to matters upon which a shareholder vote is required consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares of all funds of the Trust vote together as a single class except as otherwise required by the 1940 Act, or if the matter being voted on affects only a particular fund, and, if a matter affects a particular fund differently from other funds, the shares of that fund will vote separately on such matter.

The Declaration of Trust may, except in limited circumstances, be amended or supplemented by the Trustees without shareholder vote. The holders of Fund shares are required to disclose information on direct or indirect ownership of Fund shares as may be required to comply with various laws applicable to the Fund, and ownership of Fund shares may be disclosed by the Fund if so required by law or regulation.

The Trust is not required and does not intend to hold annual meetings of shareholders. Shareholders owning more than 51% of the outstanding shares of the Trust have the right to call a special meeting to remove one or more Trustees or for any other purpose.

The Trust does not have information concerning the beneficial ownership of Shares held by DTC Participants (as defined below).

Shareholders may make inquiries by writing to the Trust, c/o the Distributor, 1290 Broadway, Suite 1000, Denver, Colorado 80203.

Control Persons. Although the Trust does not have information concerning its beneficial ownership held in the names of DTC Participants, as of September 23, 2025, the names, addresses and percentage ownership of each DTC Participant that owned of record 5% or more of the outstanding Shares of the Fund were as follows:

ALPS O'Shares International Developed Quality Dividend ETF		
Company Name	% of Ownership	Address
Merrill Lynch Pierce Fenner Smith	23.25%	4804 Deerlake Dr. E. Jacksonville, FL 32246
Charles Schwab & Co., Inc.	19.42%	3000 Schwab Way Westlake, TX 76262
Raymond James	12.99%	880 Carillon Parkway St. Petersburg, FL 33716
National Financial Services LLC	10.18%	499 Washington Blvd 4th Floor Jersey City, NJ 07310
Janney Montgomery Scott LLC	9.67%	1717 Arch Street Philadelphia, PA 19103
LPL Financial Co.	6.05%	9785 Towne Centre Drive San Diego CA 92121-1968

Book Entry Only System. The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Book Entry.”

DTC Acts as Securities Depository for Fund Shares. Shares of the Fund are represented by securities registered in the name of DTC or its nominee and deposited with, or on behalf of, DTC.

DTC, a limited-purpose trust company, was created to hold securities of its participants (the “DTC Participants”) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the NYSE and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (the “Indirect Participants”).

Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to herein as “Beneficial Owners”) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase and sale of Shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depository Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the Shares of the Fund held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication,

in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Fund distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all Fund Shares. DTC or its nominee, upon receipt of any such distributions, shall immediately credit DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in Shares of the Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a "street name," and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such Shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

DTC may decide to discontinue providing its service with respect to Shares at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

Proxy Voting. The Board has delegated responsibility for decisions regarding proxy voting for securities held by the Fund to the Adviser. The Adviser will vote such proxies in accordance with its proxy policies and procedures, which are included in Appendices to this SAI. The Board will periodically review the Fund's proxy voting record.

The Trust is required to disclose annually the Fund's complete proxy voting record on Form N-PX covering the period July 1 through June 30 and file it with the SEC no later than August 31. Form N-PX for the Fund also will be available at no charge upon request by calling 1-866-675-2639 or by writing to ALPS ETF Trust at 1290 Broadway, Suite 1000, Denver, Colorado 80203. The Fund's Form N-PX also is available on the SEC's website at www.sec.gov.

Quarterly Portfolio Schedule. The Trust is required to disclose a complete schedule of the Fund's portfolio holdings with the SEC on Form N-CSR after its second and fourth quarters. Disclosure of the Fund's complete holdings is required to be made monthly on Form N-PORT no later than 60 days after the end of each fiscal quarter, with information reported on Form N-PORT for the third month of the fiscal quarter made publicly available by the SEC 60 days after the end of the Fund's fiscal quarter. Form N-CSR and Form N-PORTs for the Fund will be available on the SEC's website at <http://www.sec.gov>. The Fund's Form N-CSR will be available without charge, upon request, by calling 1-866-675-2639 or by writing to ALPS ETF Trust at 1290 Broadway, Suite 1000, Denver, Colorado 80203.

Portfolio Holdings Policy. The Trust has adopted a policy regarding the disclosure of information about the Trust's portfolio holdings. The Fund and its service providers may not receive compensation or any other consideration (which includes any agreement to maintain assets in the Fund or in other investment companies or accounts managed by the Adviser or any affiliated person of the Adviser) in connection with the disclosure of portfolio holdings information of the Trust. The Trust's policy is implemented and overseen by the Chief Compliance Officer of the Trust, subject to the oversight of the Board. Periodic reports regarding these procedures will be provided to the Board. The Board must approve all material amendments to this policy. The Fund's complete portfolio holdings are publicly disseminated each day the Fund is open for business through financial reporting and news services, including publicly accessible Internet web sites. In addition, a basket composition file, which includes the security names and share quantities to deliver in exchange for Fund shares, together with estimates and actual cash components, is publicly disseminated daily prior to the opening of the Fund's listing Exchange and the Nasdaq via the National Securities Clearing Corporation ("NSCC"). The basket represents one Creation Unit of the Fund. The Trust, the Adviser and the Distributor will not disseminate non-public information concerning the Trust.

There can be no assurance that the Fund's policies and procedures with respect to disclosure of Fund portfolio holdings will prevent the misuse of such information by individuals and firms that receive such information

Codes of Ethics. Pursuant to Rule 17j-1 under the 1940 Act, the Board has adopted a Code of Ethics for the Trust and approved Codes of Ethics adopted by the Adviser and the Distributor (collectively the "Codes"). The Codes are intended to ensure that the interests of shareholders and other clients are placed ahead of any personal interest, that no undue personal benefit is obtained from the person's employment activities, and that actual and potential conflicts of interest are avoided.

The Codes apply to the personal investing activities of Trustees and officers of the Trust, the Adviser and the Distributor ("Access Persons"). Rule 17j-1 and the Codes are designed to prevent unlawful practices in connection with the purchase or sale of securities by Access Persons. Under the Codes, Access Persons are permitted to engage in personal securities transactions, but are required to report their personal securities transactions for monitoring purposes. The Codes permit personnel subject to the Codes to invest in securities subject to certain limitations, including securities that may be purchased or held by the Fund. In addition, certain Access Persons are required to obtain approval before investing in initial public offerings or private placements. The Codes are on file with the SEC and are available to the public.

CREATION AND REDEMPTION OF CREATION UNIT AGGREGATIONS

Creation. The Trust issues and sells Shares of the Fund only in Creation Unit Aggregations on a continuous basis through the Distributor, without a sales load, at its NAV next determined after receipt, on any Business Day (as defined below), of an order in proper form.

A "Business Day" is any day on which the NYSE is open for business. As of the date of this SAI, the NYSE observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Washington's Birthday, Good Friday, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

Deposit of Securities and Deposit or Delivery of Cash. The consideration for purchase of Creation Unit Aggregations of the Fund generally consists of the in-kind deposit of a designated portfolio of securities — the "Deposit Securities" — per each Creation Unit Aggregation ("Fund Securities") and an amount of cash — the "Cash Component" — computed as described below. The Fund may effect creations largely or wholly for cash. Together, the Deposit Securities, the Cash Component and/or the Deposit Cash (as applicable) constitute the "Fund Deposit," which represents the minimum initial and subsequent investment amount for a Creation Unit Aggregation of the Fund.

The Cash Component is sometimes also referred to as the Balancing Amount. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit Aggregation and the aggregate market value of the Deposit Amount (as defined below). The Cash Component is an amount equal to the difference between the NAV of the Fund Shares (per Creation Unit Aggregation) and the "Deposit Amount" — an amount equal to the market value of the Deposit Securities. If the Cash Component is a positive number (i.e., the NAV per Creation Unit Aggregation exceeds the Deposit Amount), the creator will deliver the Cash Component. If the Cash Component is a negative number (i.e., the NAV per Creation Unit Aggregation is less than the Deposit Amount), the creator will receive the Cash Component.

The Custodian, through the National Securities Clearing Corporation (“NSCC”) (discussed below), makes available on each Business Day, prior to the opening of business on the Fund’s listing Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of shares of each Deposit Security and the amount of the cash component to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund that effects creations wholly or partly in-kind.

Such Fund Deposit is applicable, subject to any adjustments as described below, in order to effect creations of Creation Unit Aggregations of the Fund until such time as the next-announced composition of the Deposit Securities is made available.

The identity and number of shares of the Deposit Securities required for a Fund Deposit for the Fund changes from time to time by the Adviser with a view to the investment objective of the Fund. The Trust may require the substitution of an amount of cash (i.e., a “cash in lieu” amount) to replace any Deposit Security that is a TBA transaction. The amount of cash contributed will be equal to the price of the TBA transaction listed as a Deposit Security. In addition, the Trust reserves the right to permit or require the substitution of an amount of cash — i.e., a “cash in lieu” amount — to be added to the Cash Component to replace any Deposit Security that may not be available in sufficient quantity for delivery or that may not be eligible for transfer through the systems of DTC or, if applicable, the Clearing Process (discussed below), or which might not be eligible for trading by an Authorized Participant (as defined below) or the investor for which it is acting or other relevant reason. Brokerage commissions incurred in connection with the acquisition of Deposit Securities not eligible for transfer through the systems of DTC and hence not eligible for transfer through the Clearing Process (discussed below) will be at the expense of the Fund and will affect the value of all Shares; but the Adviser, subject to the approval of the Board of Trustees, may adjust the transaction fee within the parameters described above to protect ongoing shareholders. The adjustments described above will reflect changes known to the Adviser on the date of announcement to be in effect by the time of delivery of the Fund Deposit. In addition to the list of names and numbers of securities constituting the current Deposit Securities of a Fund Deposit, the Custodian, through the NSCC, also makes available on each Business Day, the estimated Cash Component, effective through and including the previous Business Day, per outstanding Creation Unit Aggregation of the Fund.

Procedures for Creation of Creation Unit Aggregations. To be eligible to place orders with the Distributor and to create a Creation Unit Aggregation of the Fund, an entity must be (i) a “Participating Party,” i.e., a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC (the “Clearing Process”), a clearing agency that is registered with the SEC; or (ii) a DTC Participant (see the Book Entry Only System section), and, in each case, must have executed an agreement with the Distributor, with respect to creations and redemptions of Creation Unit Aggregations (“Participant Agreement”) (discussed below). A Participating Party and DTC Participant are collectively referred to as an “Authorized Participant.” Investors should contact the Distributor for the names of Authorized Participants that have signed a Participant Agreement. All Fund Shares, however created, will be entered on the records of DTC in the name of Cede & Co. for the account of a DTC Participant. Only U.S. equity securities are eligible to be cleared through the Clearing Process. Therefore, the Fund will only be eligible to utilize the Clearing Process for U.S. equity securities.

All orders to create Creation Unit Aggregations, whether through the Clearing Process (through a Participating Party) or outside the Clearing Process (through a DTC Participant), must be received by the Distributor no later than the closing time of the regular trading session on the NYSE (“Closing Time”) (ordinarily 4:00 p.m., Eastern time) in each case on the date such order is placed in order for creation of Creation Unit Aggregations to be effected based on the NAV of Shares of the Fund as next determined on such date after receipt of the order in proper form. In the case of custom orders, the order must be received by the Distributor no later than 3:00 p.m., Eastern time on the trade date. Notwithstanding the foregoing, the Trust may, but is not required to, permit custom orders until 4:00 p.m., Eastern time, or until the market close (in the event the Exchange closes early). A custom order may be placed by an Authorized Participant in the event that the Trust permits or requires the substitution of securities or the substitution of an amount of cash to be added to the Cash Component to replace any Deposit Security which may not be available in sufficient quantity for delivery or which may not be eligible for trading by such Authorized Participant or the investor for which it is acting or other relevant reason. The date on which an order to create Creation Unit Aggregations (or an order to redeem Creation Unit Aggregations, as discussed below) is placed is referred to as the “Transmittal Date.” Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement, as described below (see the “Placement of Creation Orders Using Clearing Process” and the “Placement of Creation Orders Outside Clearing Process” sections). Severe economic or market disruptions or changes, or telephone or other communication failure may impede the ability to reach the Distributor or an Authorized Participant.

All orders from investors who are not Authorized Participants to create Creation Unit Aggregations shall be placed with an Authorized Participant, as applicable, in the form required by such Authorized Participant. In addition, the Authorized Participant may request the investor to make certain representations or enter into agreements with respect to the order, e.g., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and that, therefore, orders to create Creation Unit Aggregations of the Fund have to be placed by the investor's broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement. Those placing orders for Creation Unit Aggregations through the Clearing Process should afford sufficient time to permit proper submission of the order to the Distributor prior to the Closing Time on the Transmittal Date. Orders for Creation Unit Aggregations that are affected outside the Clearing Process are likely to require transmittal by the DTC Participant earlier on the Transmittal Date than orders effected using the Clearing Process. Those persons placing orders outside the Clearing Process should ascertain the deadlines applicable to DTC and the Federal Reserve Bank wire system by contacting the operations department of the broker or depository institution effectuating such transfer of Deposit Securities and Cash Component.

To the extent that the Fund invests in non-U.S. securities, the Custodian shall cause the sub-custodian of the Fund to maintain an account into which the Authorized Participant shall deliver, on behalf of itself or the party on whose behalf it is acting, the securities included in the designated Fund Deposit (or the cash value of all or part of such securities, in the case of a permitted or required cash purchase or "cash in lieu" amount), with any appropriate adjustments as advised by the Trust. Deposit Securities must be delivered to an account maintained at the applicable local sub-custodian(s). Orders to purchase Creation Unit Aggregations must be received by the Distributor from an Authorized Participant on its own or another investor's behalf by the closing time of the regular trading session on the Fund's listing Exchange on the relevant Business Day. However, when a relevant local market is closed due to local market holidays, the local market settlement process will not commence until the end of the local holiday period. Settlement must occur by 2:00 p.m., Eastern time, on the contractual settlement date.

The Authorized Participant must also make available no later than 2:00 p.m., Eastern time, on the contractual settlement date, by means satisfactory to the Trust, immediately-available or same-day funds estimated by the Trust to be sufficient to pay the Cash Component next determined after acceptance of the purchase order, together with the applicable purchase transaction fee. Any excess funds will be returned following settlement of the issue of the Creation Unit Aggregation.

Placement of Creation Orders Using Clearing Process. The Clearing Process is the process of creating or redeeming Creation Unit Aggregations through the Continuous Net Settlement System of the NSCC. Fund Deposits made through the Clearing Process must be delivered through a Participating Party that has executed a Participant Agreement. The Participant Agreement authorizes the Distributor to transmit through the Custodian to NSCC, on behalf of the Participating Party, such trade instructions as are necessary to effect the Participating Party's creation order. Pursuant to such trade instructions to NSCC, the Participating Party agrees to deliver the requisite Deposit Securities and the Cash Component to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Unit Aggregations through the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor not later than the Closing Time on such Transmittal Date and (ii) all other procedures set forth in the Participant Agreement are properly followed.

Placement of Creation Orders Outside Clearing Process. Fund Deposits made outside the Clearing Process must be delivered through a DTC Participant that has executed a Participant Agreement pre-approved by the Adviser and the Distributor. A DTC Participant who wishes to place an order creating Creation Unit Aggregations to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Unit Aggregations will instead be effected through a transfer of securities and cash directly through DTC. The Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities through DTC to the account of the Fund by no later than 11:00 a.m., Eastern time, of the next Business Day immediately following the Transmittal Date.

All questions as to the number of Deposit Securities to be delivered, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust, whose determination shall be final and binding. The amount of cash equal to the Cash Component must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than 2:00 p.m., Eastern time, on the next Business Day immediately following such Transmittal Date. An order to create Creation Unit Aggregations outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (i) such order is received by the Distributor not later than the Closing Time on such Transmittal Date; and (ii) all other procedures set forth in the Participant Agreement are properly followed. However, if the Custodian does not receive both the required Deposit Securities and the Cash Component by 11:00 a.m. and 2:00 p.m., respectively, on the next Business Day immediately following the Transmittal Date, such order will be canceled. Upon written notice to the Distributor, such canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then current Deposit Securities and Cash Component. The delivery of Creation Unit Aggregations so created will generally occur no later than the first (1st) Business Day following the day on which the purchase order is deemed received by the Distributor, unless a different settlement time is specified.

Additional transaction fees may be imposed with respect to transactions effected outside the Clearing Process (through a DTC Participant) and in the circumstances in which any cash can be used in lieu of Deposit Securities to create Creation Units. (See Creation Transaction Fee section below).

Creation Unit Aggregations may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities as described below. In these circumstances, the initial deposit will have a value greater than the NAV of the Fund Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (i) the Cash Component, plus (ii) 115% of the market value of the undelivered Deposit Securities (the "Additional Cash Deposit"). The order shall be deemed to be received on the Business Day on which the order is placed provided that the order is placed in proper form prior to 4:00 p.m., Eastern time, on such date, and federal funds in the appropriate amount are deposited with the Custodian by 11:00 a.m., Eastern time, the following Business Day. If the order is not placed in proper form by 4:00 p.m. or federal funds in the appropriate amount are not received by 11:00 a.m. the next Business Day, then the order may be deemed to be canceled and the Authorized Participant shall be liable to the Fund for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending delivery of the missing Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal to 115% of the daily marked to market value of the missing Deposit Securities. To the extent that missing Deposit Securities are not received by 1:00 p.m., Eastern time, on the first Business Day following the day on which the purchase order is deemed received by the Distributor or in the event a marked-to-market payment is not made within one Business Day following notification by the Distributor that such a payment is required, the Trust may use the cash on deposit to purchase the missing Deposit Securities. Authorized Participants will be liable to the Trust and the Fund for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the day the purchase order was deemed received

by the Distributor plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the missing Deposit Securities have been properly received by the Custodian or purchased by the Trust and deposited into the Trust. In addition, a transaction fee, as described below, will be charged in all cases. The delivery of Creation Unit Aggregations so created will generally occur no later than the first Business Day following the day on which the purchase order is deemed received by the Distributor, unless a different settlement time is specified.

Acceptance of Orders for Creation Unit Aggregations. The Trust reserves the right to reject a creation order transmitted to it by the Distributor in respect of the Fund if, including but not limited to, the following conditions are present: (i) the order is not in proper form; (ii) the investor(s), upon obtaining the Fund Shares ordered, would own 80% or more of the currently outstanding shares of any Fund; (iii) the Deposit Securities delivered are not as disseminated for that date by the Custodian, as described above; (iv) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; or (v) in the event that circumstances outside the control of the Trust, the Custodian, the Distributor and the Adviser make it for all practical purposes impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Adviser the Distributor, DTC, NSCC, the Custodian or sub-custodian or any other participant in the creation process, and similar extraordinary events. The Distributor shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of such prospective creator of its rejection of the order of such person. The Trust, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall any of them incur any liability for the failure to give any such notification.

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility, and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust's determination shall be final and binding.

Creation and Redemption Transaction Fee. Authorized Participants may be required to pay a creation or redemption fee for purchasing or redeeming Creation Units. Creation and redemption transactions for the Fund are subject to a creation or redemption fee, payable to SSB, in the amount listed in the table below, irrespective of the size of the order.

An additional variable charge may be imposed for creations effected outside the Clearing Process.

In addition, in the case of cash creations or where the Trust permits or requires an Authorized Participant to substitute cash in lieu of depositing a portion of the Deposit Securities, the Authorized Participant may be assessed an additional variable charge to compensate the Fund for the costs associated with purchasing the applicable securities. The Trust may adjust these fees from time to time based upon actual experience. As a result, in order to seek to replicate the in-kind creation order process, the Trust expects to purchase, in the secondary market or otherwise gain exposure to, the portfolio securities that could have been delivered as a result of an in-kind creation order pursuant to local law or market convention, or for other reasons ("Market Purchases"). In such cases where the Trust makes Market Purchases, the Trust may require the Authorized Participant to reimburse the Trust for, among other things, any difference between the market value at which the securities and/or financial instruments were purchased by the Trust and the cash in lieu amount (which amount, at the Adviser's discretion, may be capped), applicable registration fees, brokerage commissions and certain taxes. The Adviser may adjust the transaction fee to the extent the composition of the creation securities changes or cash in lieu is added to the Cash Component to protect ongoing shareholders. To the extent the transaction expenses associated with Market Purchases are not fully reimbursed by the Authorized Participant through the transaction fee or otherwise, the Fund will bear such transaction expenses. Investors are responsible for the costs of transferring the securities constituting the Deposit Securities to the account of the Trust.

The standard creation or redemption transaction fee for the Fund is \$750.

Redemption of Fund Shares in Creation Units Aggregations. Fund Shares may be redeemed only in Creation Unit Aggregations at the Fund's NAV next determined after receipt of a redemption request in proper form by the Fund through the Transfer Agent and only on a Business Day. The Fund will not redeem Shares in amounts less than Creation Unit Aggregations. Beneficial owners must accumulate enough Shares in the secondary market to constitute a Creation Unit Aggregation in order to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit Aggregation. Investors should expect to incur brokerage and other costs in connection with assembling a sufficient number of Fund Shares to constitute a redeemable Creation Unit Aggregation.

An Authorized Participant submitting a redemption request is deemed to represent to the Trust that it (or its client) (i) has full legal authority and legal right to tender for redemption the requisite number of Shares of the Fund and to receive the entire proceeds of the redemption, and (ii) if such Shares submitted for redemption have been loaned or pledged to another party or are the subject of a repurchase agreement, securities lending agreement or any other arrangement effecting legal or beneficial ownership of such Shares being tendered there are no restrictions precluding the tender and delivery of such Shares (including borrowed Shares, if any) for redemption, free and clear of liens, on the redemption settlement date. The Trust reserves the right to verify these representations at its discretion, but will typically require verification with respect to a redemption request from the Fund in connection with higher levels of redemption activity and/or short interest in the Fund. If the Authorized Participant, upon receipt of a verification request, does not provide sufficient verification of its representations as determined by the Trust, the redemption request will not be considered to have been received in proper form and may be rejected by the Trust.

With respect to the Fund that effects redemptions wholly or partly in-kind, the Custodian, through the NSCC, makes available prior to the opening of business on the Fund's listing Exchange (currently 9:30 a.m., Eastern time) on each Business Day, the identity of the Fund Securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as described below) on that day. Fund Securities received on redemption may not be identical to Deposit Securities that are applicable to creations of Creation Unit Aggregations.

Unless cash redemptions (or partial cash redemptions) are available or specified for the Fund, the redemption proceeds for a Creation Unit Aggregation generally consist of Fund Securities — as announced on the Business Day of the request for redemption received in proper form unless custom orders are available or specified — plus or minus cash in an amount equal to the difference between the NAV of the Fund Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Fund Securities (the "Cash Redemption Amount"), less a redemption transaction fee as listed below. In the event that the Fund Securities have a value greater than the NAV of the Fund Shares, a compensating cash payment equal to the difference is required to be made by or through an Authorized Participant by the redeeming shareholder.

The Fund may effect redemptions largely or wholly in cash.

The right of redemption may be suspended or the date of payment postponed (i) for any period during which the NYSE is closed (other than customary weekend and holiday closings); (ii) for any period during which trading on the NYSE is suspended or restricted; (iii) for any period during which an emergency exists as a result of which disposal of the Shares of the Fund or determination of the Fund's NAV is not reasonably practicable; or (iv) in such other circumstances as is permitted by the SEC.

Redemption Transaction Fee. A redemption transaction fee is imposed to offset transfer and other transaction costs that may be incurred by the Fund. An additional variable charge for cash redemptions (when cash redemptions are available or specified) for the Fund may be imposed to compensate the Fund for the costs associated with selling the applicable securities. The Fund may adjust these fees from time to time based on actual experience. As a result, in order to seek to replicate the in-kind redemption order process, the Trust expects to sell, in the secondary market, the portfolio securities that will not be delivered as part of an in-kind redemption order ("Market Sales"). In such cases where the Trust makes Market Sales, the Authorized Participant will reimburse the Trust for, among other things, any difference between the market value at which the securities were sold by the Trust and the cash in lieu amount (which amount, at the Adviser's discretion, may be capped), applicable registration fees, brokerage commissions and taxes. To the extent applicable, brokerage commissions incurred in connection with the Trust's sale of portfolio securities will be at the expense of the Fund and will affect the value of all Shares of the Fund; but the Adviser may adjust the transaction fee to the extent the composition of the redemption securities changes or cash in lieu is added to the Cash Redemption Amount to protect ongoing shareholders. Investors who use the services of a broker or other such intermediary may be charged a fee for such services. The standard redemption transaction fees for the Fund otherwise are the same as the standard creation fees set forth above. In no event will a redemption transaction fee exceed 2% of the amount redeemed. Investors will also bear the costs of transferring the Fund Securities from the Trust to their account or on their order. To the extent the transaction expenses associated with Market Sales are not fully reimbursed by the Authorized Participant through the transaction fee or otherwise, the Fund will bear such transaction expenses.

Placement of Redemption Orders Using Clearing Process. Orders to redeem Creation Unit Aggregations through the Clearing Process must be delivered through a Participating Party that has executed the Participant Agreement. An order to redeem Creation Unit Aggregations using the Clearing Process is deemed received by the Trust on the Transmittal Date if (i) such order is received by the Transfer Agent not later than 4:00 p.m., Eastern time, on such Transmittal Date, and (ii) all other procedures set forth in the Participant Agreement are properly followed; such order will be effected based on the NAV of the Fund as next determined. An order to redeem Creation Unit Aggregations using the Clearing Process made in proper form but received by the Trust after 4:00 p.m., Eastern time, will be deemed received on the next Business Day immediately following the Transmittal Date and will be effected at the NAV next determined on such next Business Day. The requisite Fund Securities and the Cash Redemption Amount will generally be transferred by the first NSCC Business Day following the date on which such request for redemption is deemed received, unless a different settlement time is specified.

Placement of Redemption Orders Outside Clearing Process. Orders to redeem Creation Unit Aggregations outside the Clearing Process must be delivered through a DTC Participant that has executed the Participant Agreement. A DTC Participant who wishes to place an order for redemption of Creation Unit Aggregations to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Unit Aggregations will instead be effected through transfer of Fund Shares directly through DTC. An order to redeem Creation Unit Aggregations outside the Clearing Process is deemed received by the Trust on the Transmittal Date if (i) such order is received by the Transfer Agent not later than 4:00 p.m., Eastern time on such Transmittal Date; (ii) such order is accompanied or followed by the requisite number of Shares of the Fund, which delivery must be made through DTC to the Custodian no later than 11:00 a.m., Eastern time (for the Fund Shares), on the next Business Day immediately following such Transmittal Date (the "DTC Cut-Off-Time") and 2:00 p.m., Eastern Time for any Cash Component, if any owed to the Fund; and (iii) all other procedures set forth in the Participant Agreement are properly followed. After the Trust has deemed an order for redemption outside the Clearing Process received, the Trust will initiate procedures to transfer the requisite Fund Securities which are generally expected to be delivered within one Business Day and the Cash Redemption Amount, if any owed to the redeeming Beneficial Owner to the Authorized Participant on behalf of the redeeming Beneficial Owner by one Business Day following the Transmittal Date on which such redemption order is deemed received by the Trust, unless a different settlement time is specified. To the extent that the Fund invests in non-U.S. securities, however, due to local market settlement procedures and/or the schedule of holidays in certain countries, the delivery of in-kind redemption proceeds may take longer than one Business Day after the day on which the redemption request is received in proper form. In the case of local holidays, the local market settlement procedures will not commence until the end of the local holiday periods. In addition, for Fund that invest in non-U.S. securities, in connection with taking delivery of shares of Fund Securities upon redemption of

shares of the Fund, a redeeming Beneficial Owner, or Authorized Participant action on behalf of such Beneficial Owner must maintain appropriate security arrangements with a qualified broker-dealer, bank or other custody provider in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered.

The calculation of the value of the Fund Securities and the Cash Redemption Amount to be delivered/received upon redemption will be made by the Custodian according to the procedures set forth under Determination of NAV computed on the Business Day on which a redemption order is deemed received by the Trust. Therefore, if a redemption order in proper form is submitted to the Transfer Agent by a DTC Participant not later than Closing Time on the Transmittal Date, and the requisite number of Shares of the Fund are delivered to the Custodian prior to the DTC Cut-Off-Time, then the value of the Fund Securities and the Cash Redemption Amount to be delivered/received will be determined by the Custodian on such Transmittal Date. If, however, either (i) the requisite number of Shares of the Fund are not delivered by the DTC Cut-Off-Time, as described above, or (ii) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the Fund Securities and the Cash Redemption Amount to be delivered/received will be computed on the Business Day following the Transmittal Date provided that the Fund Shares of the Fund are delivered through DTC to the Custodian by 11:00 a.m. the following Business Day pursuant to a properly submitted redemption order.

For the Fund, if it is not possible to effect deliveries of the Fund Securities, the Trust may in its discretion exercise its option to redeem such Fund Shares in cash, and the redeeming Beneficial Owner will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash that the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its Fund Shares based on the NAV of Shares of the Fund next determined after the redemption request is received in proper form (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Fund's brokerage and other transaction costs associated with the disposition of Fund Securities). The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities, or cash in lieu of some securities added to the Cash Component, but in no event will the total value of the securities delivered and the cash transmitted differ from the NAV. Redemptions of Fund Shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Unit Aggregations for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular security included in the Fund Securities applicable to the redemption of a Creation Unit Aggregation may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming Beneficial Owner of the Fund Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of shares or delivery instructions.

Regular Holidays. The Fund that invests in non-U.S. securities generally intends to effect deliveries of Creation Units and Portfolio Securities on a basis of “T” plus one Business Day (i.e., days on which the national securities exchange is open), unless a different settlement time is specified. The Fund may effect deliveries of Creation Units and Portfolio Securities on a basis other than T plus one in order to accommodate local settlement procedures or holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates, or under certain other circumstances. The ability of the Trust to effect in-kind creations and redemptions within one Business Day of receipt of an order in good form is subject, among other things, to the condition that, within the time period from the date of the order to the date of delivery of the securities, there are no days that are holidays in the applicable foreign market. For every occurrence of one or more intervening holidays in the applicable foreign market that are not holidays observed in the U.S. equity market, the redemption settlement cycle will be extended by the number of such intervening holidays. In addition to holidays, other unforeseeable closings in a foreign market due to emergencies may also prevent the Trust from delivering securities within normal settlement period.

The securities delivery cycles currently practicable for transferring Portfolio Securities to redeeming investors, coupled with foreign market holiday schedules, will require a delivery process longer than seven calendar days for the Fund, in certain circumstances. The timing of settlement may also be affected by proclamation of new holidays, the treatment by market participants of certain days as “informal holidays” (e.g., days on which no or limited securities transactions occur, as a result of substantially shortened trading hours), the elimination of existing holidays or changes in local securities delivery practices.

TAXES

This discussion of certain U.S. federal income tax considerations affecting the Fund and the purchase, ownership and disposition of Shares is based upon the Code, the regulations promulgated thereunder, judicial authorities, and administrative rulings and practices as in effect as of the date of this SAI, all of which are subject to change, including the following information which also supplements and should be read in conjunction with the section in the Prospectus entitled “Federal Income Taxation.”

The following is a summary of the material U.S. federal income tax considerations applicable to an investment in Fund Shares. The summary is based on the laws in effect on the date of this SAI and existing judicial and administrative interpretations thereof, all of which are subject to change, possibly with retroactive effect. In addition, this summary assumes that the Fund shareholder holds Fund Shares as capital assets within the meaning of the Code, and does not hold Fund Shares in connection with a trade or business. This summary does not address all potential U.S. federal income tax considerations possibly applicable to an investment in Fund Shares, to Fund shareholders holding Fund Shares through a partnership (or other pass-through entity) or to Fund shareholders subject to special tax rules. Prospective Fund shareholders are urged to consult their own tax advisors with respect to the specific federal, state, local and foreign tax consequences of investing in Fund Shares.

The Fund intends to qualify for and has elected or intends to elect to be treated as a separate regulated investment company (a “RIC”) under Subchapter M of the Internal Revenue Code, as amended (the “Code”). As a RIC, the Fund will not be subject to U.S. federal income tax on the portion of its taxable investment income and capital gains that it distributes to its shareholders. To qualify for treatment as a RIC, the Fund must annually distribute at least 90% of its net investment company taxable income (which includes dividends, interest and net short-term capital gains) and meet several other requirements relating to the nature of its income and the diversification of its assets. If the Fund fails to qualify for any taxable year as a RIC, all of its taxable income will be subject to tax at regular corporate income tax rates without any deduction for distributions to shareholders, and such distributions generally will be taxable to shareholders as ordinary dividends to the extent of the Fund’s current and accumulated earnings and profits.

The Fund is treated as a separate corporation for federal income tax purposes. The Fund therefore is considered to be a separate entity in determining its treatment under the rules for RICs described herein and in the Prospectus.

The Fund will be subject to a nondeductible 4% excise tax on certain undistributed income if it does not distribute to its shareholders in each calendar year at least the sum of (i) 98% of its ordinary income (taking into account certain deferrals and elections) for the calendar year; (ii) 98.2% of its net capital gains for twelve months ended October 31 of such year; and (iii)) any net ordinary income and capital gains in excess of capital losses for preceding years that were not distributed during such years for which it paid no U.S. federal income taxes. The Fund intends to declare and distribute dividends and distributions in the amounts and at the times necessary to avoid the application of this nondeductible 4% excise tax.

As a result of tax requirements, the Trust on behalf of the Fund has the right to reject an order to purchase Shares if the purchaser (or group of purchasers) would, upon obtaining the Shares so ordered, own 80% or more of the outstanding Shares of the Fund and if, pursuant to section 351 of the Code, that Fund would have a basis in the Deposit Securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial Share ownership for purposes of the 80% determination.

For federal income tax purposes, the Fund is generally permitted to carry forward a net capital loss in any taxable year to offset its own capital gains, if any. These amounts are available to be carried forward to offset future capital gains to the extent permitted by the Code and applicable tax regulations. Any such loss carryforwards will retain their character as short-term or long-term. In the event that the Fund were to experience an ownership change as defined under the Code, the capital loss carryforwards and other favorable tax attributes of the Fund, if any, may be subject to limitation.

In determining its net capital gain, including also in connection with determining the amount available to support distributions of net long-term capital gains, its taxable income and its earnings and profits, the Fund generally may elect to treat part or all of any post-October capital loss (defined as any net capital loss attributable to the portion, if any, of the taxable year after October 31 or, if there is no such loss, the net long-term capital loss or net short-term capital loss attributable to any such portion of the taxable year) or late-year ordinary loss (generally, the sum of its (i) net ordinary loss, if any, from the sale, exchange or other taxable disposition of property, attributable to the portion, if any, of the taxable year after October 31, and its (ii) other net ordinary loss, if any, attributable to the portion, if any, of the taxable year after December 31) as if incurred in the succeeding taxable year.

The Fund’s ability to use certain tax benefits could be limited if the Fund experiences an “ownership change” within the meaning of section 382 of the Code. Such tax benefits include net capital losses and certain built-in losses. An ownership change may occur if there is a greater than 50% change in the value of the stock of the Fund owned by five percent shareholders during the testing period (generally three years). An ownership change may be triggered by the purchase and sale, redemption, or new issuance of Fund shares or by a merger of the Fund with another RIC.

The Fund may make investments that are subject to special federal income tax rules, such as investments in repurchase agreements, money market instruments, convertible securities, VIEs and structured notes. Those special tax rules can, among other things, affect the timing of income or gain, the treatment of income as capital or ordinary and the treatment of capital gain or loss as long-term or short-term. The application of these special rules would therefore also affect the character of distributions made by the Fund. The Fund may need to borrow money or dispose of some of its investments earlier than anticipated in order to meet its distribution requirements.

Certain of the Fund's investments may be subject to special U.S. federal income tax provisions that may, among other things, (i) disallow, suspend or otherwise limit the allowance of certain losses or deductions, (ii) convert lower-taxed long-term capital gain into higher-taxed short-term capital gain or ordinary income, (iii) convert an ordinary loss or a deduction into a capital loss, the deductibility of which is more limited, (iv) adversely affect when a purchase or sale of stock or securities is deemed to occur, (v) adversely alter the intended characterization of certain complex financial transactions (vi) cause the Fund to recognize income or gain without a corresponding receipt of cash and (vii) produce non-qualifying income for purposes of the income test required to be satisfied by a RIC. The application of these rules could cause the Fund to be subject to U.S. federal income tax or the nondeductible 4% excise tax and, under certain circumstances, could affect the Fund's status as a RIC. The Fund will monitor its investments and may make certain tax elections in order to mitigate the effect of these provisions.

The Fund is required for federal income tax purposes to mark to market and recognize as income for each taxable year its net unrealized gains and losses on certain futures contracts as of the end of the year as well as those actually realized during the year. Gain or loss from futures and options contracts on broad-based indexes required to be marked to market will be 60% long-term and 40% short-term capital gain or loss. Application of this rule may alter the timing and character of distributions to shareholders. The Fund may be required to defer the recognition of losses on futures contracts, options contracts and swaps to the extent of any unrecognized gains on offsetting positions held by the Fund.

In order for the Fund to continue to qualify for federal income tax treatment as a RIC, at least 90% of its gross income for a taxable year must be derived from qualifying income, i.e., dividends, interest, income derived from loans or securities, gains from the sale of securities or of foreign currencies or other income derived with respect to the Fund's business of investing in securities (including net income derived from an interest in certain "qualified publicly traded partnerships"). It is anticipated that any net gain realized from the closing out of futures or options contracts will be considered gain from the sale of securities or derived with respect to the Fund's business of investing in securities and therefore will be qualifying income for purposes of the 90% gross income requirement.

The Fund distributes to shareholders at least annually any net capital gains which have been recognized for federal income tax purposes, including unrealized gains at the end of the Fund's fiscal year on futures or options transactions. Such distributions are combined with distributions of capital gains realized on the Fund's other investments and shareholders are advised on the nature of the distributions.

The Fund may invest in stocks of foreign companies that are classified under the Code as passive foreign investment companies ("PFICs"). In general, a foreign company is classified as a PFIC if at least 50% of its assets constitute investment-type assets or 75% or more of its gross income is investment-type income. In general under the PFIC rules, an "excess distribution" received with respect to PFIC stock is treated as having been realized ratably over the period during which the Fund held the PFIC stock. The Fund itself will be subject to tax on the portion, if any, of the excess distribution that is allocated to the Fund's holding period in prior taxable years (and an interest factor will be added to the tax, as if the tax had actually been payable in such prior taxable years) even though the Fund distributes the corresponding income to shareholders. Excess distributions include any gain from the sale of PFIC stock as well as certain distributions from a PFIC. All excess distributions are taxable as ordinary income.

The Fund may be able to elect alternative tax treatment with respect to PFIC stock. Under an election that currently may be available, the Fund generally would be required to include in its gross income its share of the earnings of a PFIC on a current basis, regardless of whether any distributions are received from the PFIC. If this election is made, the special rules, discussed above, relating to the taxation of excess distributions, would not apply. Alternatively, the Fund may be able to elect to mark to market its PFIC stock, resulting in the stock being treated as sold at fair market value on the last business day of each taxable year. Any resulting gain would be reported as ordinary income, and mark-to-market losses and any loss from an actual disposition of the Fund's shares would be deductible as ordinary losses to the extent of any net mark-to-market gains included in income in prior years with respect to stock in the same PFIC.

Because the application of the PFIC rules may affect, among other things, the character of gains, the amount of gain or loss and the timing of the recognition of income with respect to PFIC stock, as well as subject the Fund itself to tax on certain income from PFIC stock, the amount that must be distributed to shareholders, and which will be taxed to shareholders as ordinary income or long-term capital gain, may be increased or decreased substantially as compared to a fund that did not invest in PFIC stock. Note that distributions from a PFIC are not eligible for the reduced rate of tax on "qualified dividends."

Investments in debt obligations that are at risk of or in default present tax issues for the Fund. Tax rules are not entirely clear about issues such as whether and to what extent the Fund should recognize market discount on a debt obligation, when the Fund may cease to accrue interest, original issue discount or market discount, when and to what extent the Fund may take deductions for bad debts or worthless securities and how the Fund should allocate payments received on obligations in default between principal and income. These and other related issues will be addressed by the Fund in order to ensure that it distributes sufficient income to preserve its status as a RIC.

Under Section 988 of the Code, special rules are provided for certain transactions in a foreign currency other than the taxpayer's functional currency (i.e., unless certain special rules apply, currencies other than the U.S. dollar). In general, foreign currency gains or losses from forward contracts, from futures contracts that are not "regulated futures contracts," and from unlisted options will be treated as ordinary income or loss under Section 988 of the Code. Also, certain foreign exchange gains or losses derived with respect to foreign fixed income securities are also subject to Section 988 treatment. In general, therefore, Section 988 gains or losses will increase or decrease the amount of the Fund's investment company taxable income available to be distributed to shareholders as ordinary income, rather than increasing or decreasing the amount of the Fund's net capital gain.

Income received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax conventions between certain countries and the U.S. may reduce or eliminate such taxes. If more than 50% of the value of the Fund's total assets at the close of its taxable year consists of stock or securities of foreign corporations, or if at least 50% of the value of the Fund's total assets at the close of each quarter of its taxable year is represented by interests in other RICs, that Fund may elect to "pass through" to its shareholders the amount of foreign taxes paid or deemed paid by that Fund. If this election is made, a shareholder generally subject to tax will be required to include in gross income (in addition to taxable dividends actually received) its pro rata share of the foreign taxes paid by the Fund, and may be entitled either to deduct (as an itemized deduction) his or her pro rata share of foreign taxes in computing his taxable income or to use it (subject to limitations) as a foreign tax credit against his or her U.S. federal income tax liability. No deduction for foreign taxes may be claimed by a shareholder who does not itemize deductions. Each shareholder will be notified after the close of the Fund's taxable year in the event that the Fund elects to "pass-through" the foreign taxes paid by the Fund for that year. Various other limitations, including a minimum holding period requirement, apply to limit the credit and/or deduction for foreign taxes for purposes of regular federal tax and/or alternative minimum tax.

The Fund may gain commodity exposure through investment in exchange traded funds that are treated as RICs or “qualified publicly traded partnerships” or grantor trusts for U.S. federal income tax purposes. An exchange traded fund that seeks to qualify as a RIC may gain commodity exposure through investment in commodity-linked notes and in subsidiaries that invest in commodity-linked instruments. Treasury regulations generally treat the Fund’s income inclusion with respect to a subsidiary as qualifying income if there is a current distribution by the subsidiary out of its earnings and profits that are attributable to such income inclusion, or if the Fund’s income inclusion is derived in connection with the Fund’s business of investing in stocks, securities, or currencies. Future IRS guidance could limit the ability of an exchange traded fund that qualifies as a RIC to gain commodity exposure regardless of whether that exchange traded fund previously received a favorable IRS private letter ruling with respect to such investment activity. Investments by the Fund in “qualified publicly traded partnerships” and grantor trusts that engage in commodity trading must be monitored and limited so as to enable the Fund to satisfy certain asset diversification and qualifying income tests for qualification as a RIC. Failure to satisfy either test would jeopardize the Fund’s status as a RIC. Loss of such status could have a material adverse effect on the Fund. Individuals (and certain other non-corporate entities) are generally eligible for a 20% deduction with respect to taxable ordinary REIT dividends and taxable income from MLPs that are publicly traded partnerships. Applicable Treasury regulations allow the Fund to pass through to its shareholders such taxable ordinary REIT dividends through 2025. Accordingly, individual (and certain other non-corporate) shareholders of the Fund that have received such taxable ordinary REIT dividends may be able to take advantage of this 20% deduction with respect to any such amounts passed through. Currently, there is not a regulatory mechanism for the Fund to pass through to its shareholders the 20% deduction with respect to taxable income from MLPs. As a result, in comparison, investors investing directly in MLPs would generally be eligible for the 20% deduction for such taxable income from these investments while investors investing in MLPs held indirectly if any through the Fund would not be eligible for the 20% deduction for their share of such taxable income.

Certain distributions reported by the Fund as Section 163(j) interest dividends may be treated as interest income by shareholders for purposes of the tax rules applicable to interest expense limitations under Section 163(j) of the Code. Such treatment by the shareholder is generally subject to holding period requirements and other potential limitations, although the holding period requirements are generally not applicable to dividends declared by money market funds and certain other funds that declare dividends daily and pay such dividends on a monthly or more frequent basis. The amount that the Fund is eligible to report as a Section 163(j) dividend for a tax year is generally limited to the excess of the Fund’s business interest income over the sum of the Fund’s (i) business interest expense and (ii) other deductions properly allocable to the Fund’s business interest income.

Distributions from the Fund’s net investment income, including net short-term capital gains, if any, and distributions of income from securities lending, are taxable as ordinary income. Distributions reinvested in additional Shares of the Fund through the means of a dividend reinvestment service will be taxable dividends to shareholders acquiring such additional Shares to the same extent as if such dividends had been received in cash. Distributions of net long-term capital gains, if any, in excess of net short-term capital losses are taxable as long-term capital gains, regardless of how long shareholders have held the Shares.

Dividends declared by the Fund in October, November or December and paid to shareholders of record of such months during the following January may be treated as having been received by such shareholders in the year the distributions were declared.

Long-term capital gains tax of non-corporate taxpayers are generally taxed at a maximum rate of either 15% or 20%, depending on whether the taxpayer's income exceeds certain threshold amounts. In addition, some ordinary dividends declared and paid by the Fund to non-corporate shareholders may qualify for taxation at the lower reduced tax rates applicable to long-term capital gains, provided that holding period and other requirements are met by the Fund and the shareholder. The Fund will report to shareholders annually the amounts of dividends received from ordinary income, the amount of distributions received from capital gains, the amount of exempt interest dividends, if any, and the portion of dividends which may qualify for the dividends received deduction. In addition, the Fund will report the amount of dividends to non-corporate shareholders eligible for taxation at the lower reduced tax rates applicable to long-term capital gains.

An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceeds certain threshold amounts.

The sale, exchange or redemption of Shares may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of Shares will be treated as long-term capital gain or loss if the Shares have been held for more than one year. Otherwise, the gain or loss on the taxable disposition of Shares will be treated as short-term capital gain or loss. A loss realized on a sale or exchange of Shares of the Fund may be disallowed if other substantially identical Shares are acquired (whether through the automatic reinvestment of dividends or otherwise) within a sixty-one (61) day period beginning thirty (30) days before and ending thirty (30) days after the date on which the Shares are disposed. In such a case, the basis of the Shares acquired must be adjusted to reflect the disallowed loss. Any loss upon the sale or exchange of Shares held for six (6) months or less is treated as long-term capital loss to the extent of any capital gain dividends received by the shareholders (including undistributed capital gain included in income).

Additionally, any loss upon the sale or exchange of Shares held for six (6) months or less may be disallowed to the extent of any distributions treated as exempt-interest dividends with respect to the Shares. The ability to deduct capital losses may be limited.

Reporting to you and the IRS annually on Form 1099-B not only the gross proceeds of Fund shares you sell or redeem but also their cost basis is required. Shareholders should contact their intermediaries with respect to reporting of cost basis and available elections with respect to their accounts.

If, for any calendar year, the total distributions made exceed the Fund's current and accumulated earnings and profits, the excess will, for federal income tax purposes, be treated as a tax free return of capital to each shareholder up to the amount of the shareholder's basis in his or her shares, and thereafter as gain from the sale of shares. The amount treated as a tax free return of capital will reduce the shareholder's adjusted basis in his or her shares, thereby increasing the shareholder's potential gain or reducing the shareholder's potential loss on the subsequent sale of the shares.

Distribution of ordinary income and capital gains may also be subject to state and local taxes.

Distributions of ordinary income paid to shareholders who are nonresident aliens or foreign entities ("Foreign Shareholders") that are not effectively connected to the conduct of a trade or business within the U.S. will generally be subject to a 30% U.S. withholding tax unless a reduced rate of withholding or a withholding exemption is provided under applicable treaty law. However, Foreign Shareholders will generally not be subject to U.S. withholding or income tax on gains realized on the sale of Shares or on dividends from capital gains unless (i) such gain or capital gain dividend is effectively connected with the conduct of a trade or business within the U.S. or (ii) in the case of a non-corporate shareholder, the shareholder is present in the U.S. for a period or periods aggregating 183 days or more during the year of the sale or capital gain dividend and certain other conditions are met. Gains on the sale of Shares and dividends that are effectively connected with the conduct of a trade or business within the U.S. will generally be subject to U.S. federal income taxation at regular income tax rates.

The Fund is not required to withhold any amounts with respect to distributions to Foreign Shareholders that are properly reported by the Fund as “interest-related dividends” or “short-term capital gain dividends,” provided that the income would not be subject to federal income tax if earned directly by the Foreign Shareholder. However, no assurance can be given as to whether any of the Fund's distributions will be eligible for this exemption from withholding of U.S. federal income tax or, if eligible, will be reported as such by the Fund. Foreign Shareholders are urged to consult their own tax advisors concerning the applicability of the U.S. withholding tax.

Under the Foreign Investment in Real Property Tax Act of 1980 (“FIRPTA”), a Foreign Shareholder is subject to withholding tax in respect of a disposition of a U.S. real property interest and any gain from such disposition is subject to U.S. federal income tax as if such person were a U.S. person. Such gain is sometimes referred to as “FIRPTA gain.” If the Fund is a “U.S. real property holding corporation” and is not domestically controlled, any gain realized on the sale or exchange of Fund shares by a Foreign Shareholder that owns at any time during the five-year period ending on the date of disposition more than 5% of a class of Fund shares would be FIRPTA gain. The Fund will be a “U.S. real property holding corporation” if, in general, 50% or more of the fair market value of its assets consists of U.S. real property interests, including stock of certain U.S. REITs. The rate of withholding by the Fund, if the Fund is categorized as a real property holding corporation under the FIRPTA rules, on a distribution to a nonresident alien or foreign corporation from the sale or exchange of a U.S. real property interest by the Fund is 21%.

The Code provides a look-through rule for distributions of FIRPTA gain by a RIC if all of the following requirements are met: (i) the RIC is classified as a “qualified investment entity” (which includes a RIC if, in general more than 50% of the RIC's assets consists of interest in REITs and U.S. real property holding corporations); and (ii) you are a Foreign Shareholder that owns more than 5% of the Fund's shares at any time during the one-year period ending on the date of the distribution. If these conditions are met, Fund distributions to you to the extent derived from gain from the disposition of a U.S. real property interest, may also be treated as FIRPTA gain and therefore subject to U.S. federal income tax, and requiring that you file a nonresident U.S. income tax return. Also, such gain may be subject to a 30% branch profits tax in the hands of a Foreign Shareholder that is a corporation. Even if a Foreign Shareholder does not own more than 5% of the Fund's shares, Fund distributions that are attributable to gain from the sale or disposition of a U.S. real property interest will be taxable as ordinary dividends subject to withholding at a 30% or lower treaty rate.

Withholding is required (at a 30% rate) with respect to payments of taxable dividends made to certain non-U.S. entities that fail to comply (or be deemed compliant) with extensive reporting and withholding requirements designed to inform the U.S. Department of the Treasury of U.S.-owned foreign investment accounts. Shareholders may be requested to provide additional information to the Fund to enable the applicable withholding agent to determine whether withholding is required.

Foreign Shareholders may also be subject to U.S. estate tax with respect to their shares of the Fund.

Some shareholders may be subject to a withholding tax on distributions of ordinary income, capital gains and any cash received on redemption of Creation Units (“backup withholding”). Generally, shareholders subject to backup withholding will be those for whom no certified taxpayer identification number is on file with the Fund or who, to the Fund's knowledge, have furnished an incorrect number. When establishing an account, an investor must certify under penalty of perjury that such number is correct and that such investor is not otherwise subject to backup withholding. Any tax withheld as a result of backup withholding does not constitute an additional tax imposed on the record owner of the account and may be claimed as a credit on the record owner's federal income tax return. The backup withholding rate is currently 24%.

The foregoing discussion is a summary only and is not intended as a substitute for careful tax planning. Purchasers of Shares should consult their own tax advisors as to the tax consequences of investing in such Shares, including under federal, state, local and other tax laws. Finally, the foregoing discussion is based on applicable provisions of the Code, regulations, judicial authority and administrative interpretations in effect on the date hereof. Changes in applicable authority could materially affect the conclusions discussed above, possibly retroactively.

DETERMINATION OF NAV

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “NAV.”

The NAV per Share of the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares of the Fund outstanding, rounded to the nearest cent. Expenses and fees, including without limitation, the management and administration fees, are accrued daily and taken into account for purposes of determining NAV. The NAV per Share is calculated by the Custodian and determined as of the close of the regular trading session on the NYSE (ordinarily 4:00 p.m., Eastern time) on each day that such exchange is open.

In computing the Fund’s NAV, the Fund’s securities holdings traded on a national securities exchange are valued based on their last sale price. Price information on listed securities is taken from the exchange where the security is primarily traded. Securities regularly traded in an over-the-counter market are valued at the latest quoted sale price in such market or in the case of the NASDAQ, at the NASDAQ official closing price. Other portfolio securities and assets for which market quotations are not readily available are valued based on fair value as determined in good faith by the Fund’s Adviser, which pursuant to Rule 2a-5 under the 1940 Act, has been designated as the valuation designee (“Valuation Designee”).

DIVIDENDS AND DISTRIBUTIONS

The following information supplements and should be read in conjunction with the sections in the Prospectus entitled “Distributions” and “Federal Income Taxation.”

General Policies. Dividends from net investment income, if any, are declared and paid either monthly, quarterly or annually depending on the Fund. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Trust may make distributions on a more frequent basis. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of the Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income.

Dividends and other distributions on Fund Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Fund.

Dividend Reinvestment Service. No reinvestment service is provided by the Trust. Broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of the Fund for reinvestment of their dividend distributions. Beneficial Owners should contact their broker to determine the availability and costs of the service and the details of participation therein. Brokers may require Beneficial Owners to adhere to specific procedures and timetables.

INDICATIVE INTRA-DAY VALUE

The approximate value of the Fund's investments on a per-Share basis, the Indicative Intra-Day Value ("IIV"), is disseminated by the Fund's listing Exchange every 15 seconds during hours of trading on the Exchange. The IIV should not be viewed as a "real-time" update of NAV because the IIV will be calculated by an independent third party calculator and may not be calculated in the exact same manner as NAV, which is computed daily.

Each Exchange calculate the IIV during hours of trading on the Exchange by dividing the "Estimated Fund Value" as of the time of the calculation by the total number of outstanding Shares. "Estimated Fund Value" is the sum of the estimated amount of cash held in the Fund's portfolio, the estimated amount of accrued interest owing to the Fund and the estimated value of the securities held in the Fund's portfolio, minus the estimated amount of liabilities. In determining the estimated value for each of the component securities, the IIV will use last sale, market prices or other methods that would be considered appropriate for pricing equity securities held by registered investment companies. Although the Fund provides the independent third party calculator with information to calculate the IIV, the Fund is not involved in the actual calculation of the IIV and are not responsible for the calculation or dissemination of the IIV. The Fund makes no warranty as to the accuracy of the IIV.

MISCELLANEOUS INFORMATION

Counsel. Dechert LLP, 1900 K Street, NW, Washington, DC 20006, is counsel to the Trust.

Independent Registered Public Accounting Firm. Cohen & Company, Ltd., 1835 Market Street, Suite 310, Philadelphia, PA 19103, serves as the Fund's independent registered public accounting firm. The independent registered public accounting firm will audit the annual financial statements for the Trust and provides other audit, tax, and related services.

FINANCIAL STATEMENTS

The financial statements and financial highlights in the Trust's November 30, 2024 [Form N-CSR](#) and in the May 31, 2025 [Form N-CSR](#) for the Fund are incorporated in this Statement of Additional Information by reference. The financial statements and financial highlights filed on Form N-CSR for the fiscal years or periods ended November 30, 2024 and November 30, 2023 have been audited by Cohen & Company, Ltd., whose reports thereon appear in the Form N-CSRs. The financial information in the May 31, 2025 Form N-CSR for the Fund for the six months ended May 31, 2025 has not been audited. The Fund's financial statements and financial highlights for the years ended November 30, 2022, and prior, were audited by other independent registered public accounting firms. You can obtain additional copies of such financial statements and financial highlights at no charge by writing or telephoning the Fund at the address or number on the front page of this Statement of Additional Information.

APPENDIX A

ALPS Advisors, Inc.

Proxy Voting Policy, Procedures and Guidelines

1. Policy Statement & General Background

a. Overview

An investment adviser that exercises voting authority over clients' proxies must adopt written policies and procedures that are reasonably designed to ensure that those proxies are voted in the best economic interests of clients. An adviser's policies and procedures must address how the adviser resolves material conflicts of interest between its interests and those of its clients. An investment adviser must comply with certain record keeping and disclosure requirements with respect to its proxy voting responsibilities. In addition, an investment adviser to ERISA accounts has an affirmative obligation to vote proxies for an ERISA account, unless the client expressly retains proxy voting authority.

b. Policy Summary

AAI has adopted and implemented the following policies and procedures, which it believes are reasonably designed to: (1) ensure that proxies are voted in the best economic interest of clients and (2) address material conflicts of interest that may arise. AAI will provide clients with a copy of its policies and procedures, as they may be updated from time to time, upon request. Information regarding AAI's proxy voting decisions is confidential. Therefore, the information may be shared on a need to know basis only, including within AAI. Advisory clients may obtain information on how their proxies were voted by AAI. However, AAI will not selectively disclose its investment company clients' proxy voting records to third parties; the investment company clients' proxy records will be disclosed to shareholders by publicly-available annual filings or each investment company's proxy voting record for 12-month periods ending June 30th.

With respect to investment companies registered under the 1940 Act, any assignment of voting authority over the Funds' voting securities is typically delegated to ALPS Advisors, Inc. ("AAI") as the Funds' investment adviser, or the Funds' sub-adviser by the respective Funds' Board of Trustees/Directors.

Voting Delegated to Sub-Advisers

If the Funds' day-to-day investment decisions are performed by the Funds' investment sub-adviser(s), Funds' Board of Trustees/Directors may elect to delegate the responsibility of voting proxies to such sub-adviser to be voted in accordance to the sub-adviser's proxy voting policies and procedures in conformance with Rule 206(4)-6 under the Investment Advisers Act of 1940, as amended. For securities in the portfolio of a Fund that is managed by more than one sub-adviser, each sub-adviser shall make voting decisions pursuant to their own proxy voting policies and procedures, as adopted in conformance with the Advisers Act for their respective portions of the Fund's portfolio, unless directed otherwise. In addition, proxy voting authority may be delegated to AAI where it serves as the Funds' sub-adviser.

c. Policy

All proxies regarding client securities for which AAI has authority to vote will, unless AAI determines in accordance with policies stated below to refrain from voting, be voted in a manner considered by AAI to be in the best interest of AAI's clients. The best interest of clients is defined for this purpose as the interest of enhancing or protecting the economic value of client accounts, considered as a group rather than individually, as AAI determines in its sole and absolute discretion. There may also be instances where a fund relies upon Section 12(d)(1)(F) of the 1940 Act, and by law, the fund may be required to vote proxies in the same proportion as the vote of all other shareholders of the acquired fund (i.e., "echo vote"). In the event a client believes that its other interests require a different vote, AAI will vote as the client clearly instructs, provided AAI receives such instructions in time to act accordingly.

AAI endeavors to vote, in accordance with this Policy, all proxies of which it becomes aware, subject to the following general exceptions (unless otherwise agreed) when AAI expects to routinely refrain from voting:

- i. Proxies will usually not be voted in cases where the security has been loaned from the client's account and subsequently, AAI determines that the type of proxy issue is not material to shareholders. AAI will utilize the below considerations to determine if a security then on loan should be recalled for voting purposes. Decisions will generally be made on a case-by-case basis depending on whether, in AAI's judgment,;

- the matter to be voted on has critical significance to the potential value of the security in question;
 - the security represents a significant holding and whether the security is considered a long-term holding; and
 - AAI believes it can recall the security in time to cast the vote.
- ii. Proxies will usually not be voted in cases where AAI deems the costs to the client and/or the administrative inconvenience of voting the security outweigh the benefit of doing so (e.g., international issuers who impose share blocking restrictions).

AAI seeks to avoid the occurrence of actual or apparent material conflicts of interest in the proxy voting process by voting in accordance with predetermined voting guidelines and observing other procedures that are intended to guard against and manage conflicts of interest (refer to Section 2.b., Conflicts of Interest, below).

2. Operating Procedures & Control Activities

Where proxy voting is delegated to the sub-adviser, the sub-adviser will adopt proxy voting policies and procedures in accordance in conformance with Rule 206(4)-6 under the Investment Advisers Act of 1940, as amended. AAI has adopted the following proxy voting procedures and controls for any client securities which AAI has authority to vote on:

a. Proxy Committee

AAI has established a Proxy Committee whose standing members are determined by AAI's Chief Compliance Officer. These members participate as voting authorities on the Proxy Committee. Each standing member may designate a senior portfolio manager or a senior analyst officer to act as a substitute in a given matter on their behalf. Additionally, the Proxy Committee regularly involves other associates who participate as needed to enable effective execution of the Committee's responsibilities.

The Proxy Committee's functions include, but are not limited to:

- i. Providing input and/or recommendations on the vote direction on proposals where special or individual consideration is requested;
- ii. review periodically these Proxy Voting Policy and Procedures to ensure consistency with internal policies, client disclosures and regulatory requirements;
- iii. development and modification of Voting Procedures, as stated in Section 2.d., as it deems appropriate or necessary.

b. Conflicts of Interest

For purposes of this policy, a material conflict of interest is a relationship or activity engaged in by AAI, an AAI affiliate, or an AAI associate that creates an incentive (or appearance thereof) to favor the interests of AAI, the affiliate, or associate, rather than the clients' interests. For example, AAI may have a conflict of interest if either AAI has a significant business relationship with a company that is soliciting a proxy, or if an AAI associate involved in the proxy voting decision-making process has a significant personal or family relationship with the particular company. A conflict of interest is considered to be "material" to the extent that a reasonable person could expect the conflict to influence AAI's decision on the particular vote at issue. In all cases where there is deemed to be a material conflict of interest, AAI will seek to resolve it in the clients' best interests.

AAI follows the proxy guidelines and uses other research services provided by Institutional Shareholder Services, Inc. ("ISS") or another independent third party. In providing proxy voting services to AAI, ISS provides vote recommendations on a pre-determined policy. Generally, AAI will vote proxies based on ISS' pre-determined voting policy. In doing so, AAI demonstrates that its vote would not be a product of a conflict of interest as AAI would have little or no discretion on how the proxy was voted.

AAI has undertaken a review of ISS' conflicts of interest procedures, and will continue to monitor them on an ongoing basis. In the event that AAI determines that it would be appropriate to use another third party, it will undertake a similar conflicts of interest assessment review.

c. Proxy Voting Guidelines

i. AAI's Proxy Voting Guidelines – General Practices

The Proxy Committee has adopted the guidelines for voting proxies specified in Appendix A of this policy. AAI will use an independent, third-party vendor to implement its proxy voting process as AAI's proxy voting agent. In general, whenever a vote is solicited, ISS or another independent third party will execute the vote according to AAI's Voting Guidelines.

ii. Ability to Vote Proxies Other than as Provided by Voting Guidelines

A portfolio manager or other party involved with a client's account may conclude that the best interest of the firm's client, as defined above, requires that a proxy be voted in a manner that differs from the predetermined proxy Voting Guidelines. In this situation, he or she will submit to AAI's Compliance Department the proposed proxy vote(s) and a written explanation of the reason(s) for voting in a manner that differs from the predetermined proxy Voting Guidelines.

A research analyst or portfolio manager must disclose in writing any inappropriate attempt to influence their recommendation or any other personal interest that they have with the issuer.

iii. Other Proxy Proposals

For the following categories of proposals either the Proxy Committee will determine how proxies related to all such proposals will be voted, or the proxies will be voted in accordance with ISS' or an individual client's guidelines.

- ***New Proposals.*** For each new type of proposal that is expected to be proposed to shareholders of multiple companies, the Proxy Committee will develop a Voting Guideline which will be incorporated into this Policy.
- ***Accounts Adhering to Taft Hartley Principles.*** All proposals for these accounts will be voted according to the Taft Hartley Guidelines developed by ISS.
- ***Accounts Adhering to Socially Responsible Principles.*** All proposals for these accounts will be voted according to the Socially Responsible Guidelines developed by ISS or as specified by the client.
- ***Proxies of International Issuers which Block Securities Sales between the Time a Shareholder submits a Proxy and the Vote.*** In general, AAI will refrain from voting such securities. However, in the exceptional circumstances that AAI determines that it would be appropriate to vote such proxies, all proposals for these securities will be voted only on the specific instruction of the Proxy Committee and to the extent practicable in accordance with the Voting Guidelines set forth in this Policy.
- ***Proxies of Investment Company Shares.*** Proposals on issues other than those provided in Section 2.c.i will be voted on the specific instruction of the Proxy Committee.
- ***Executive/Director Compensation.*** Except as provided in Section 2.c.i, proposals relating to compensation of any executive or director will be voted as recommended by ISS or as otherwise directed by the Proxy Committee.
- ***Preemptive Rights.*** Proposals to create or eliminate shareholder preemptive rights. In evaluating these proposals the Proxy Committee will consider the size of the company and the nature of its shareholder base.

d. Voting Procedures

The Proxy Committee has developed the following procedures to aid the voting of proxies according to the Voting Guidelines. The Proxy Committee may revise these procedures from time to time, as it deems necessary or appropriate to affect the purposes of this Policy.

- i. AAI will use an independent, third-party vendor, to implement its proxy voting process as AAI's proxy voting agent. This retention is subject to AAI continuously assessing the vendor's independence from AAI and its affiliates, and the vendor's ability to perform its responsibilities (and, especially, its responsibility to vote client proxies in accordance with AAI's proxy voting guidelines) free of any actual, potential or apparent material conflicts of interests that may arise between the interests of the vendor, its affiliates, the vendor's other clients and the owners, officers or employees of any such firm, on the one hand, and AAI's clients, on the other hand. As means of performing this assessment, AAI will require various reports and notices from the vendor, as well as periodic audits of the vendor's voting record and other due diligence.
- ii. ISS will provide proxy analysis and record keeping services in addition to voting proxies on behalf of AAI in accordance with this Policy.
- iii. On a daily basis, AAI or designee will send to ISS a holdings file detailing each equity holding held in all accounts over which AAI has voting authority.
- iv. AAI will complete a Vote Authorization Registration with ISS for any new client, which will describe how ballots will be executed on behalf of the client. In addition, AAI will complete and provide the client's custodian bank with a Letter of Authorization. The letter will serve as notice that AAI has retained ISS to act as the voting agent for the securities held in the client's account and will instruct the custodian bank to forward all ballots, meeting notices, and other proxy materials to ISS.
- v. ISS will receive proxy material information from Proxy Edge or the custodian bank for the account. This will include issues to be voted upon, together with a breakdown of holdings for AAI accounts. ISS will then reconcile information it receives from Proxy Edge and custodian banks. Any discrepancies will be promptly noted and resolved by ISS, with notice to AAI.
- vi. Whenever a vote is solicited, ISS will execute the vote according to AAI's Voting Guidelines which will be delivered by AAI to ISS as set forth in Appendix A of these policies and procedures and anytime there is a material change to these guidelines.
 - If ISS is unsure how to vote a particular proxy, ISS will issue a request for voting instructions to AAI over a secure website. AAI personnel will check this website regularly. The request will be accompanied by a recommended vote. The recommended vote will be based upon ISS' understanding of the Voting Guidelines previously delivered to ISS. AAI will promptly provide ISS with any amendments or modifications to the Voting Guidelines if necessary. AAI will return a final instruction to vote to ISS, which ISS will record with Proxy Edge or the custodian bank as our agent.

- vii. Each time that ISS sends AAI a request to vote, the request will be accompanied by the recommended vote determined in accordance with AAI's Voting Guidelines. ISS will vote as indicated in the request unless the client has reserved discretion, the Portfolio Manager(s) determines that the best interest of clients requires another vote, or the proposal is a matter as to which the Proxy Committee affords special, individual consideration. In such situations, ISS will vote based on the direction of the client, Portfolio Manager(s) or the Proxy Committee, as the case may be. The interests of AAI's Taft Hartley or Socially Responsible clients may impact a proposal that normally should be voted in a certain way. ISS will inform AAI of all proposals having impact on its Taft Hartley and or Socially Responsible clients.
- viii. ISS will have procedures in place to ensure that a vote is cast on every security holding maintained by AAI on which a vote is solicited unless otherwise directed by the Proxy Committee. On a yearly basis, or as required by our clients, AAI will receive a report from ISS detailing AAI's voting for the previous period.

e. Proxy Advisory Firm Oversight

i. Initial Assessment

In selecting a third-party proxy advisory firm, AAI will perform an initial due diligence review to ensure that voting determinations are made in the best interests of AAI clients and in accordance with these policies and procedures. AAI's review will include, but is not limited to, assessing:

- The necessary resources to fulfill the proxy voting responsibilities;
- Policies and procedures with respect to obtaining issuer and client input on proxy voting policies; and
- Transparency regarding voting recommendations and research methodologies.

ii. Ongoing Reviews

In addition to the initial evaluation of a proxy advisory firm, AAI will conduct ongoing assessments of the proxy advisory firm's business. Such reviews will occur at periodic intervals and will include, but are not limited to:

- Summary of material changes, if any, to the proxy advisory firm's business and how such changes impact the services provided to AAI and its clients;
- Methodology updates to guidelines and voting recommendations; and
- Disclosure of conflicts of interest.

f. Securities Lending

Each Fund advised by AAI, where authorized by its respective Board, may engage in securities lending transactions, to the extent permitted by the Fund's investment policies and limitations. The Adviser will be required to monitor for scheduled or anticipated proxy votes relating to securities on loan and determine whether the securities should be recalled from loan on the relevant record date. There may be situations where the Adviser may not be able to recall the security in time to cast the vote.

g. Supervision

Managers and supervisory personnel are responsible for ensuring that their associates understand and follow this policy and any applicable procedures adopted by the business group to implement the policy. The Proxy Committee has ultimate responsibility for the implementation of this Policy.

h. Escalation

With the exception of conflicts of interest-related matters, issues arising under this policy should be escalated to AAI's CCO, or designee. Issues involving potential or actual conflicts of interest should be promptly communicated to Compliance or Legal. Compliance will notify the Funds' Chief Compliance Officer(s), if a material conflict of interest is deemed to have arisen.

i. Monitoring

AAI's Compliance Department is primarily responsible for overseeing the day-to-day operations of the proxy voting process. The Compliance Department's monitoring will take into account the following elements: (1) periodic review of ISS votes to ensure that ISS is accurately voting consistent with AAI's Proxy Guidelines and such voting recommendations are based on accurate and complete information; and (2) review of the Funds' N-PX report to ensure that it's filed in a timely and accurate manner. Additionally, AAI will review ISS' conflicts of interest policies.

AAI's Compliance Committee monitors proxy matters for its clients including monitoring material conflicts of interest identified.

j. Availability of Proxy Policy and Voting Record

A summary disclosure regarding the provisions of this Policy will be available in AAI's Form ADV, to the extent AAI is required to prepare Part 2 to Form ADV. Upon receipt of a Client's request for more information, AAI will provide to the Client a copy of this Policy and/or how AAI voted proxies for the Client pursuant to this Policy for up to a one-year period.

AAI will not selectively disclose its investment company clients' proxy voting records; rather, AAI will disclose such information by publicly available annual filings. AAI will create and maintain records of each investment company's proxy record for 12-month periods ended June 30th. AAI will compile the following information for each matter relating to a portfolio security considered at any shareholder meeting during the period covered by the annual report and which the company was entitled to vote:

- The name of the issuer of the security;
- The exchange ticker symbol of the portfolio security (if symbol is available through reasonably practicable means);
- The Council on Uniform Securities Identification Procedures number for the portfolio security (if number is available through reasonably practicable means);
- The shareholder meeting date;
- A brief identification of the matter voted on;
- Whether the matter was proposed by the issuer or by a security holder;
- Whether the company cast its vote on the matter;
- How the company cast its vote (e.g., for or against proposal, or abstain; for or withhold regarding the election of directors); and
- Whether the company cast its vote for or against management.

k. Other Recordkeeping Requirements

Business groups and support partners are responsible for maintaining all records necessary to evidence compliance with this policy. The records must be properly maintained and readily accessible in order to evidence compliance with this policy.

These records include:

- Proxy Committee Meeting Minutes and Other Materials (routine oversight matters are discussed within AAI's Compliance Committee meetings and will be documented within the Compliance Committee's materials);
- Analysis and Supporting Materials of Investment Management Personnel Concerning Proxy Decisions and Recommendations;
- Conflicts of Interest Review Documentation, including Conflicts of Interest Forms; and
- Client Communications Regarding Proxy Matters.

Records should be retained for a period of not less than six years. Records must be retained in an appropriate office of AAI for the first three years.

APPENDIX A

Summary of Proxy Voting Guidelines

AAI has adopted Institutional Shareholder Services, Inc.'s ("ISS") standard benchmark proxy voting guidelines and ISS' sustainability proxy voting guidelines. AAI will apply the most appropriate guidelines to ensure proxy votes are voted consistent with proxy voting policies and procedures and in the best interests of clients.

ISS has created multiple guidelines to cover various markets, including, but not limited to: U.S., Canada, Europe, United Kingdom, Asia, Africa and Australia. AAI retains the right to override any of ISS' guidelines on a case-by-case basis. A concise summary of ISS' current Proxy Voting Guidelines can be found at: <http://www.issgovernance.com/policy>.
